

Stream Restoration Success II

Decades of lessons in watershed restoration offer future opportunities & challenges

The practice, science, and art of stream stewardship and restoration have evolved over the last 30 plus years. Local and state researchers and practitioners have identified additional opportunities and challenges for successful stream restoration projects and watershed management. This includes the use of monitoring to learn from past efforts and improve future projects. As a follow-up to the first Stream Restoration Success shortcourse in 2006, we have gathered presenters to share their experiences and lessons learned through the evolution of conservation practices. Presenters will also compare short and long-term outcomes at restored sites for habitat use, restoration genetics, water quality, invasive species and other ecosystem services. Confirmed speakers include:

Paul Sheffer (NRCS) & Liza Prunuske (PCI) – 30 Years of Evolving Conservation Practices

Kenneth Tate (UC Davis) – Maintaining Ecosystem Services Over Time

Leslie Ferguson (San Francisco Bay RWQCB) – Funding & Monitoring

Kate Sullivan (Humboldt Redwood Co.) – Road restoration effectiveness and interactions with soil

Gregory Andrew (MMWD) – Fish Response to Restoration in Walker & Lagunitas creeks

Nathaniel Seavy & Thomas Gardali (PRBO) – Climate Change & the Restoration Report Card

Carolyn Shoulders (NPS) – Multiple Objectives at Redwood Creek, Muir Woods

Daniel Gluesenkamp (Audubon Canyon Ranch) – Success Forever?

DATE & TIME: Wednesday, May 4 2011, 8:45 – 3:30

LOCATION: Novato City Hall, Novato – 901 Sherman Ave. at the corner of DeLong Ave. & Sherman Ave.
Take the DeLong Ave. Exit from Highway 101 and head west.

Parking – adjacent to City Hall and at Whole Foods (790 DeLong Ave. a half block away).

FEE: \$25.00

Please RSVP by registering online at http://ucanr.org/stream_restoration or call Frances Healey at (415) 499-4204. Do not hesitate to contact David Lewis (415-499-4204, djllewis@ucdavis.edu) or Michael Lennox (707-565-2836, mlelnox@ucdavis.edu) with questions.
