

DESERT LEMON FRUIT DROP GROWER ROUND TABLE DISCUSSION

In the fall of 2015 and 2016, growers in the desert regions reported excessive fruit drop. Particularly in the Coachella Valley, Imperial County, and in Yuma, Arizona. The cause of the fruit drop is unknown. Come learn more about the current situation and find out how you can help resolve this issue.

Sept. 12, 2017, Noon-1pm Ciro's Resturante & Pizza, 81963 CA- 111, Indio, CA 92201 Lunch will be provided.

Lemon Growers in the desert regions are highly suggested to attend

Please RSVP for this Free Event:
