Crop Products: Bentonite

Garden Treasure Bentonite (wic-2337)

Crop Products: Diatomaceous Earth

Last Crawl Grain Insect DEstroyer (wic-5326) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Diatomaceous Earth

Red Lake Earth Diatomaceous Earth with Calcium Bentonite (wic-9325) 1

May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

◆ This product is allowed with restrictions. See the Categories section for use restrictions.

■ This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.

1 The arsenic level of this product exceeds 10ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

2 The arsenic level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

4 The lead level of this product exceeds 90ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

5 The lead level of this product exceeds 180ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

6 The cadmium level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

7 The cadmium level of this product exceeds 40ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

8 The fecal coliform level of this product exceeds 1000 MPN/g. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

9 The Salmonella level of this product exceeds 3 MPN/4g. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

Barn Fresh Natural Ammonia Control (wic-8090) 1

May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Stall Dry Absorbent & Deodorizer (wic-1412) 1

May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Fresh Coop Dust Bath (wic-6488) 1

May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

White Lake Diatomaceous Earth (wic-11033) 1

May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

FeedSource Diatomaceous Earth (wic-11115) 1

May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Minerals – feed

Z-Lite Feed Additive Premium HSCAS

Formula (wic-7850) 1

May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Odor Control Products

ABF Activated Barn Fresh Poultry Litter Ammonia Control (wic-3864)

Activated Barn Fresh Fresh Coop Odor Control (wic-6119)

Activated Poultry Sense Natural Zeolite & Citric Acid Formula (wic-8524)

Activated Barn Sense Zeolite Odor Control Bedding Additive Natural Zeolite & Citric Acid Formula (wic-8525)

Processing Products: Diatomaceous Earth

Last Crawl Grain Insect DEstroyer Insecticide Powder (wic-4455) 1

May be used as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. May also be used for post-harvest handling of raw agricultural commodities.

Last Crawl Insect DEstroyer Insecticide Powder (wic-5327) 1

May be used as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. May also be used for post-harvest handling of raw agricultural commodities.

Last Crawl Insecticide Powder Insect DEstroyer for Bedbugs & Pet Bedding (wic-6453) 1

May be used as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. May also be used for post-harvest handling of raw agricultural commodities.

Absorbezz LLC

Joseph Schivoletto
4855 NW 155TH AVE
Coral Springs, FL 333076
United States
P: +19547091125
petintact@yahoo.com

Livestock Products: Minerals – feed

Absorbezz O Premier Livestock Feed Enhancement (azz-4519) 1

May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Abundant Organics

Marketing Department
7300 State Highway 199
Upper Sandusky, OH 43351
P: +18887711250, F: +14192941352

Crop Products: Aquatic Plant Products – synthetically extracted

ALGACROP FERTILIZANTE ORGANICO
(Granulado) (adh-0570)
ALGACROP L10 FERTILIZANTE
ORGÁNICO LÍQUIDO (adh-10715)

Crop Products: Botanical Pesticides

CANELCROP Insecticida Agrícola
Concentrado Soluble (adh-11574) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventative, mechanical, physical, and other
pest, weed, and disease management practices.

Crop Products: Copper Sulfate

PROTECTOR Sulfato de cobre
pentahidratado Fungicida Agrícola Solución
Acuosa (adh-8759) 1
For plant disease control, must be used in a
manner that minimizes accumulation of copper in
the soil. For use as an algicide in aquatic rice
systems and for tadpole shrimp control in aquatic
rice systems, must not exceed one application
per field during any 24-month period. Application
rates are limited to those which do not increase
baseline soil test values for copper over a time
frame agreed upon by the producer and
accredited certifying agent. May be used as an
algicide, insecticide, or disease control if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

Crop Products: Fulvic Acids

ULTRAFULVI FERTILIZANTE ORGÁNICO
LÍQUIDO (adh-2561)

Crop Products: Humic Acids – alkali extracted

ULTRAHUMI FERTILIZANTE ORGANICO
(Líquido) (adh-1622)

Crop Products: Microbial Products

BIOBACIL Bacillus subtilis Fungicida
Agrícola Concentrado Soluble (adh-8475) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

BIO BT Bacillus thuringiensis Insecticida
Agrícola Concentrado Soluble (adh-8476) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

BIOVERIA Beauveria bassiana Insecticida
Agrícola Polvo Humectable (adh-10367) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

NEMAFIN Paecilomyces lilacinus
Nematicida Agrícola Polvo Humectable (adh-
10368) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

RIZIUMAX Metarhizium anisopliae
Insecticida Agrícola Polvo Humectable (adh-
10369) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

TRIDER Trichoderma harzianum Fungicida
Agrícola Polvo Humectable (adh-10370) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

Crop Products: Molasses

SUGARCROP FERTILIZANTE ORGANICO
(Líquido) (adh-1714)

Crop Products: Neem Extract and Derivatives

AGRONEEM Aceite extracto de neem
(azadiractina) Insecticida Agrícola
Concentrado Soluble (adh-8758) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventative, mechanical, physical, and other
pest, weed, and disease management practices.

Crop Products: Soap – pesticide

ULTRASOAP Ácidos grasos + Sales
potásicas INSECTICIDA AGRÍCOLA
SUSPENSIÓN ACUOSA (adh-10716) 1
May be used as an algicide/demossier, herbicide
or insecticide if the requirements of §205.206(e)
are met, which requires the use of preventative,
mechanical, physical, and other pest, weed, and
disease management practices. When used as an
herbicide may only be used for farmstead
maintenance (roadways, ditches, right of ways,
building perimeters) and ornamental crops.

Crop Products: Microbial Pesticides

Altiara SuperVivo Bacillus thuringiensis Var. Kurstaki Insecticida Agrícola Polvo Humectable (avc-11629) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Altiara ENERBAC Inoculante Biológico del Suelo (avc-8315)

Crop Products: Neem Extract and Derivatives

Altiara Némesis Plus Extracto de aceite de neem Insecticida/Concentrado Emulsionable (avc-10333) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Némesis Plus 3% CE Azadiractina Insecticida / Concentrado Emulsionable (avc-11044) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara Nemacid 3% CE Azadiractina Insecticida/Concentrado Emulsionable (avc-11424) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils – nonsynthetic sources

Altiara Asprix 90 Insecticida Botánico/Concentrado Emulsionable (avc-11628) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara Asprix 90 Aceite Vegetal de Semilla de Soya Insecticida Botánico / Concentrado Emulsionable (avc-3563) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Petroleum-Based – narrow range

Altiara Azzayt Plus Aceite mineral 98.50 CE Insecticida-Acaricida/Concentrado Emulsionable (avc-8892) 1

May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara Zeltim Max Aceite mineral 98.50 CE Insecticida-Acaricida/Concentrado Emulsionable (avc-8893) 1

May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Albardón Altiara Aceite mineral 98.50 CE Insecticida-Acaricida/Concentrado Emulsionable (avc-7717) 1

May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Altiara Bioletrum 5% EC Piretrina Natural Insecticida Botánico/Concentrado Emulsionable (avc-10666) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara Nautinis 5% EC Piretrina Natural Insecticida Botánico/Concentrado Emulsionable (avc-10667) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara Pyrethrum 5% EC Piretrina Natural Insecticida Botánico/Concentrado Emulsionable (avc-8968) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara PORTRIN piretrina 0.2%PH Insecticida/Polvo humectable (avc-11083) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara Piretren 0.2%PH Piretrina Insecticida / Polvo Humectable (avc-7597) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara Piretrip 0.2%PH Piretrina Insecticida / Polvo humectable (avc-7598) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara PyreMax 0.2%PH Piretrina Insecticida / Polvo humectable (avc-7091) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Altiara Crittox Piretrina Insecticida / Polvo humectable (avc-7094) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Trichoderma spp.

Altiara Bioben Trichoderma harzianum Fungicida biológico / Polvo humectable (avc-3553) 1

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

COC Oxicloruro de Cobre Fungicida Polvo Humectable (aes-6502) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

NuCop DF Hidróxido de Cobre Fungicida Gránulos Dispersables (aes-6503) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

NuCop Hidróxido de Cobre Fungicida Polvo Humectable (aes-6504) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

COPper GREEN HB oxicloruro de cobre fungicida gránulos dispersables (aes-8189) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Copper Green 25 WG Bactericide, Fungicide, Inorganic Metallic Copper (aes-8909) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Blue Shield 20 DF HB hidróxido cúprico fungicida gránulos dispersables (aes-8651) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Blue Shield 20 WG Bactericida, Fungicida - Inorgánico Metallic Copper (aes-8652) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Copernico HB Hidróxido de cobre Fungicida agrícola/Gránulos dispersables (aes-8653) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Star Hidro 20 DF HB hidróxido cúprico Fungicida/Gránulos dispersables (aes-8654) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Boron Products – synthetic

Agro-K CLEAN Boron (tlk-11473) 1

May be used as a plant or soil amendment if soil deficiency of boron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Calcium Chloride, Fertilizers, Blended

Agro-K CLEAN Calcium (tlk-10597) 1

Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake. Fertilizers are restricted if the liquid or solid product contains one or more restricted plant or animal materials as an ingredient.

Agro-K CLEAN SeaCal 0-0-0.15 (tlk-11476) 1

Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake. Fertilizers are restricted if the liquid or solid product contains one or more restricted plant or animal materials as an ingredient.

Crop Products: Calcium Chloride, Micronutrients – synthetic

Agro-K CLEAN Cal-Boron (tlk-11475) 1

Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake. May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fertilizers, Blended
Agro-K CLEAN Potassium 0-0-6 (tlk-10602)
Agro-K CLEAN Symspray 0-0-1 (tlk-10603)

Crop Products: Fertilizers, Blended with micronutrients

Agro-K CLEAN BioMax (tlk-10596) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Agro-K CLEAN Copper (tlk-10598) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Agro-K CLEAN Iron (tlk-10599) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Agro-K CLEAN Manganese (tlk-10601) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Agro-K CLEAN Zinc (tlk-10604) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate

Agro-K CLEAN Magnesium (tlk-10600) 1
May only be used as a plant or soil amendment if soil deficiency for magnesium is documented.

Crop Products: Magnesium Sulfate – synthetic, Micronutrients – synthetic

Agro-K CLEAN Micro-Mix (tlk-11474) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium. May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Botanical Pesticides

Agronuve innovando valor CHALEP
DEFENSE insecticida (anv-8411) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

Cu-Protech agronuve Fungicida/Bactericida (anv-7635) 1
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides – nonsynthetic

Agronuve innovando valor BOTRIMIL
Fungicida (anv-8309) 1
May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides

Agronuve innovando valor NOT FUNGUS
Fungicida/Nematicida (anv-8258) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Silicate, aqueous

Agronuve Sili-K Insecticida/Fungicida (anv-6803) 1

May be used as an insecticide or disease control if the requirements of 205.206(e) are met, which require the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Agronuve Innovando Valor Pyrestop Insecticida (anv-11310) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Agri Star® Basic Copper 53 (alb-0048) 1
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers – fixed

Copper Hydroxide 20% DF Fungicide/Bactericide (alb-3940) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Nu-Cop® HB Fungicide/Bactericide (alb-2993) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Nu-Cop® 50DF Fungicide/Bactericide (alb-2558) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Agri Star® Nu Cop® 50 WP Agricultural Fungicide/Bactericide (alb-4253) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Agri Star® COC WP Copper Oxochloride Agricultural Fungicide (alb-0049) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Agri Star Nu-Cop 30 HB Fungicide/Bactericide (alb-6644) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Microbial Products

BIOST Insecticide 100 Biological Insecticide (alb-8698) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BIOST Nematicide 100 Biological Nematicide (alb-8699) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers – fixed

Sure Gold Fungicida y Bactericida Sistémico (bcv-11279) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Growth Regulators for Plants

Vita Plant (bcv-11276) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Gamafol (bcv-11278) 1

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

Akri Neem (bcv-11277) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Ferric Phosphate

Bayer Advanced Natria® Snail & Slug Killer Bait Ready-to-Use (bad-1888) 1

May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Bayer Advanced Natria™ Disease Control Ready-to-Spray (bad-1889) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Advanced Natria™ Disease Control Ready-to-Use (bad-1890) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

Bayer Advanced Natria™ Neem Oil Concentrate (bad-4365) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Advanced Natria™ Neem Oil Ready-to-Use (bad-4366) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils – nonsynthetic sources

Bayer Advanced Natria® Multi-Insect Control Concentrate (bad-1885) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Advanced Natria® Multi-Insect Control Ready-to-Spray (bad-1886) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap – pesticide

Bayer Advanced Natria® Insecticidal Soap Ready-to-Use (bad-1887) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Fungicides – non-synthetic

Bayer Contans WG Biological Fungicide (gus-6391) 1
May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides

Bayer Serenade Optimum (gus-3975) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade MAX (gus-4424) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Serenade Garden Disease Control Ready to Use (gus-4427) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Jazz A Wettable Powder Biofungicide (gus-5131) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade Opti A Wettable Powder Biofungicide (gus-5425) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Bayer Serenade ASO (gus-4423) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade Soil (gus-4425) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Serenade Garden Disease Control Concentrate (gus-4426) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Serenade Garden Disease Control Ready to Spray (gus-4428) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Rhapsody (gus-5132) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

HUMA GRO PROUD 3 (bhn-9882) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

HUMA GRO PROMAX (bhn-9952) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

HUMA GRO® TURF PROUD 3® (bhn-3395) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

HUMA GRO® TURF PROMAX™ (bhn-3396) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Huma Gro® Proud 3® RTU (bhn-2880) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Huma Gro Thyme Pro (bhn-10466) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Chloride

Fertilgold Ca 0-0-0 (bhn-10789) 1

Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Cobalt – micronutrient

Fertilgold Co 0-0-0 (bhn-11357) 1

May be used as a plant or soil amendment if soil deficiency of cobalt is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Coppers – micronutrient

Fertilgold Cu 0-0-0 (bhn-10975) 1

May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fertilizers, Blended with micronutrients

Fertilgold MICROS I 0-0-0 (bhn-10888) 1

May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate

Fertilgold Mg 0-0-0 (bhn-10616) 1

May only be used as a plant or soil amendment if soil deficiency for magnesium is documented.

Crop Products: Humates

Fertilgold 1-3mm (bhn-10640)
Fertilgold 6 mm(-) (bhn-10641)
Fertilgold Greens (bhn-10642)
Fertilgold Powder (bhn-10643)
HUMA BURST 1-3mm (bhn-10719)
Fertilgold Microhumic (bhn-11157)

Crop Products: Iron Products

Fertilgold Fe 0-0-0 (bhn-10976) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Manganese Products

Fertilgold Mn 0-0-0 (bhn-11355) 1
May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Potassium Sulfate – nonsynthetic

Fertilgold K6 0-0-6 (bhn-10887)

Crop Products: Seed Treatments

Fertilgold Microhumic (bhn-11158)

Crop Products: Sodium Molybdate

Fertilgold Mo 0-0-0 (bhn-11351) 1
May be used as a plant or soil amendment if soil deficiency of molybdenum is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Zinc Products

Fertilgold Zn 0-0-0 (bhn-10977) 1
May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Bacillus thuringiensis

Biologa® Bathur® Bacillus thuringiensis Insecticida Microbial/Solución Concentrada (SC) (bla-10732) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides

Biologa® Basub® Bacillus subtilis Fungicida-Bactericida Microbial/Solución Concentrada (SC) (bla-10731) 1
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Biologa® ProtectoX® Fungicida-Bactericida Extracto de Gobernadora (Larrea tridentata) Fungicida-Bactericida/Suspensión Concentrada (SC) (bla-10580) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Biologa® Solak® Extracto de Canela Insecticida/Concentrado Emulsionable (CE) (bla-10582) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

Biologa® Secader® Sulfato de Cobre Pentahidratado Fungicida-Bactericida/Solución Acuosa (SA) (bla-10581) 1
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Biologa® Bauba® Insecticida Microbial/Suspensión Concentrada (SC) (bla-10881) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Biologa® Methar® Insecticida Microbial/Suspensión Concentrada (SC) (bla-10882) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Trichoderma spp.

Biologa® Trichor® Fungicida Microbial/Solución Concentrada (SC) (bla-10733) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Dioxide

Albe D1 100% Natural (aln-6411) 1
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Fertilizers, Blended with micronutrients

Biomatrix Polvo + Complejo Biofertilizante-
Inoculante Orgánico Polvo Soluble Coloidal
(bfx-4587) 1

May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Growth Regulators for Plants

Azoton AA Plus Complejo Biofertilizante
Aportador de Nitrógeno Líquido Soluble (bfx-4586) 1

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Raizinn Biol Bio-Regulador Orgánico
Promotor de Raíces Liquido Soluble (bfx-4588) 1

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Inoculants

GOgreen (bmg-2113)

Crop Products: Iron Products

BioFlora® Iron 0.05-0-0.2 (bmg-0458) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.
BioFlora Zip Iron (bmg-7683) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Limestone

BioFlora Go Cal (bmg-10922)

Crop Products: Magnesium Sulfate – synthetic

Fulmega™ 1% Mg (bmg-1198) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.
BioFlora® Magnesium 4% (bmg-1057) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Magnesium Sulfate – synthetic, Micronutrients – synthetic

BioFlora Alfalfa Blend (bmg-6367) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium. May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Manganese Products

BioFlora® Man (1%) (bmg-3088) 1
May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

BioFlora® Manganese 4% (bmg-4960) 1
May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Microbial Products

GO Isolates (bmg-3558)
Sea Isolates (bmg-6826)

Crop Products: Adjuvants – for pesticide use

AquaSil Nonionic Activator-Spreader Adjuvant (bss-5783) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Biopesticides

PVent (bss-10973) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Hydrogen Peroxide

OxiDate 2.0 (bss-3213) 1

May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

TerraClean 5.0 Broad Spectrum Bactericide/Fungicide (bss-4640) 1

May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

ZeroTol 2.0 Fungicide, Bactericide and Algicide (bss-5846) 1

May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

SaniDate WTO Bactericide/Algicide (bss-5819) 1

May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

Crop Products: Hydrogen Peroxide Starting Materials

PerCarb Broad Spectrum Bactericide/Fungicide (bss-8484) 1

Must be mixed with water prior to use. May be used for plant disease control or as an algicide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Inoculants

TerraGrow (bss-5931)

Crop Products: Neem Extract and Derivatives

AzaGuard™ Botanical Based Insecticide/Nematicide (bss-1943) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Peracetic Acid

BioSafe Mold & Mildew Control (bss-2150) 1

May be used as a pesticide to control fireblight and to disinfect equipment, seed and asexually propagated planting material if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Also permitted in hydrogen peroxide formulations as allowed in § 205.601(a) and 205.601(i) at concentration of no more than 6% as indicated on the pesticide product label.

BioSafe Disease Control (bss-2552) 1

May be used as a pesticide to control fireblight and to disinfect equipment, seed and asexually propagated planting material if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Also permitted in hydrogen peroxide formulations as allowed in § 205.601(a) and 205.601(i) at concentration of no more than 6% as indicated on the pesticide product label.

Crop Products: Soap – ammonium

AXXE® Broad Spectrum Herbicide (bss-2930) 1

Use must comply with requirements of §205.206(e) which requires the use of preventative, mechanical, physical, and other pest, weed, and disease control management practices. When used as animal repellent, may only be used as a large animal repellent and substance must not contact soil or edible portion of crop. May be used as an algicide/demossifier, herbicide or insecticide according to §205.601(a)(7), (b)(1) and (e)(8), respectively. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Soap – pesticide

BioSafe Weed Control (bss-3526) 1

May be used as an algicide/demossifier, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Sodium Carbonate Peroxyhydrate

GreenClean®PRO Broad Spectrum Algicide/Fungicide/Bactericide Oxidizer (bss-2281) 1

Permitted as an algicide. Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. May only be used as an algicide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Peroxyacetic/Peracetic Acid (CAS #79-21-0)

SaniDate® 5.0 (bss-2333) 1

For sanitizing facility and processing equipment.

Processing Products: Peracetic Acid/Peroxyacetic Acid

SaniDate® 12.0 (bss-2086) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

SaniDate® 5.0 Sanitizer/Disinfectant (bss-2087) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Activated Peroxygen Chemistry StorOx 2.0 Versatile Sanitizer (bss-2612) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

SaniDate FD (bss-4550) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

SaniDate 15.0 Versatile Sanitizer (bss-6993) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

RootShield® PLUS+ WP Biological
Fungicide (bkw-3270) 1
May be used for pesticidal purposes only if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

Crop Products: Microbial Products

RootShield AG Biological Fungicide (bkw-
5453) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

RootShield® PLUS+ Granules Biological
Fungicide (bkw-3281) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

RootShield® WP Biological Fungicide (bkw-
1576) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

CEASE® Biological Fungicide (bkw-1268) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May only be
used for other pesticidal purposes if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

Crop Products: Molasses

other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventative, mechanical, physical, and other
pest, weed, and disease management practices.

Crop Products: Oils, Petroleum-Based – narrow range

SuffOil-X® Spray Oil Emulsion, Fungicide,
Insecticide, and Miticide (bkw-1742) 1
May be used for plant disease control or as an
insecticide (including acaricide or mite control) if
the requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

Crop Products: Potassium Bicarbonate

MilStop SP Foliar Fungicide (bkw-7390) 1
May be used for disease control if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

MilStop® Broad Spectrum Foliar Fungicide
(bkw-3141) 1
May be used for disease control if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices.

Crop Products: Trichoderma spp.

RootShield® Home & Garden Biological
Fungicide (bkw-2147) 1
May be used if the requirements of 205.206(e) are
met, which requires the use of preventative,
mechanical, physical, and other pest, weed, and
disease management practices.

RootShield® Granules Biological Fungicide
(bkw-0741) 1
May be used if the requirements of 205.206(e) are
met, which requires the use of preventative,
mechanical, physical, and other pest, weed, and
disease management practices.

T-22™ HC Biological Fungicide (bkw-3080) 1
May be used if the requirements of 205.206(e) are
met, which requires the use of preventative,
mechanical, physical, and other pest, weed, and
disease management practices.

Botanicare Growilla Bud 2-5-4 (bta-5164) 1
May be (i) applied to land used for a crop not
intended for human consumption; (ii) incorporated
into the soil not less than 120 days prior to the
harvest of a product whose edible portion has
direct contact with the soil surface or soil
particles; or (iii) incorporated into the soil not less
than 90 days prior to the harvest of a product
whose edible portion does not have direct
contact with the soil surface or soil particles.
May be used as a plant or soil amendment if soil
deficiency of manganese is documented by
testing. Must not be used as a defoliant, herbicide
or desiccant.

Botanicare Growilla Veg 5-4-2 (bta-5165) 1
May be (i) applied to land used for a crop not
intended for human consumption; (ii) incorporated
into the soil not less than 120 days prior to the
harvest of a product whose edible portion has
direct contact with the soil surface or soil
particles; or (iii) incorporated into the soil not less
than 90 days prior to the harvest of a product
whose edible portion does not have direct
contact with the soil surface or soil particles.
May be used as a plant or soil amendment if soil
deficiency of manganese is documented by
testing. Must not be used as a defoliant, herbicide
or desiccant.

Crop Products: Adjuvants – for pesticide use

Brandt Organics EcoSpreader Organosilicone Surfactant (cle-6306) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Brandt Organics SKH Sticker (cle-5439) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Brandt Organics Defoamer Antifoaming/Defoaming Agent (cle-6914) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Brandt® Super Wetter Wetting Agent•Spreader•Penetrant (cle-7194) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Brandt 719 Spreader Penetrant Wetting Agent Spreader (cle-8202) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Boric Acid

Brandt Boric Acid Micronutrient Supplement (cle-4355) 1
May be used as a plant or soil amendment if soil deficiency of boron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Botanical Pesticides

Ecotec® Broad Spectrum Insecticide and Miticide (cle-0669) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Ecotec Acaricide Biologique (cle-5522) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Brandt Ecotec Plus Broad Spectrum Insecticide and Miticide (cle-6983) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Brandt Organics Aleo Bactericide and Fungicide (cle-8187) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Polysulfide

Brandt Lime Sulfur Fungicide (cle-4574) 1
May be used as insecticide (acaricide) and for plant disease control only if the requirements of 205.206(e) are met.

Crop Products: Coppers – micronutrient

Brandt Organics 5% Cu Liquid Complexed Micronutrients (cle-4472) 1
May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Ferric Phosphate

Brandt Antixx Plus Ant & Crawling Insect Killer (cle-6514) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Brandt Antixx Plus Granular Insect Slug and Snail Bait (cle-7856) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Humates

Leonardite Plus™ Granular (cle-1049)
Brandt Leonardite - Coarse Granular Humic Acid (cle-10250)

Crop Products: Iron Products

Brandt Ferrous Sulfate - Crystal Nutrient Supplement (cle-3767) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Organics 5% Fe Liquid Complexed Micronutrients (cle-4474) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Ferrous Sulfate - Coarse Granular (cle-11219) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Ferrous Sulfate - Fine Granular (cle-11220) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Magnesium Sulfate – synthetic

Brandt Magnesium Sulfate - Crystal Nutrient Supplement (cle-3768) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Brandt Magnesium Sulfate - Granular Nutrient Supplement (cle-4356) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Brandt Organics 4% Mg Liquid Complexed Micronutrients (cle-4479) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Magnesium Sulfate – synthetic, Micronutrients – synthetic

Brandt Organics Crop Mix Liquid Complexed Micronutrients (cle-4473) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium. May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Organics Hort Mix Liquid Complexed Micronutrient (cle-11332) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium. May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Manganese Products

Brandt Manganese Sulfate - Powder Micronutrient Supplement (cle-3765) 1
May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Manganese Sulfate - Granular Micronutrient Supplement (cle-3766) 1
May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Micronutrients – synthetic

Brandt Organics 7% Mn Liquid Complexed Micronutrients (cle-4475) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Organics Tree & Vine Mix Liquid Complexed Micronutrients (cle-4476) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Organics Desert Crop Mix Liquid Complexed Micronutrient (cle-11331) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Nematicides – nonsynthetic

Brandt Nema-Q A Biopesticide (cle-4343) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Petroleum-Based – narrow range

Saf-T-Side Miticide / Insecticide 800EL (cle-3773) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Brandt TresOil™ Spray Oil Emulsion Fungicide, Insecticide and Miticide (cle-2685) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Brandt TriTek™ Spray Oil Emulsion Fungicide, Insecticide and Miticide (cle-2686) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Paraffinic Oil from Petroleum Insecticide and Acaricide Emulsion in Water (cle-1078) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Emulsion d'Huile pour bouillies agricoles Insecticide & Acaricide (cle-5523) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Formülasyon sekli: Emülsiyon Konsantre (EC) Insektisit-Akarisit (cle-6981) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Peroxyacetic/Peracetic Acid (CAS #79-21-0)

Hye-Clean Out Antimicrobial Solution (cle-5967) 1
May only be used for disinfecting facility, processing equipment, seed and asexually propagated planting material. Also permitted in hydrogen peroxide formulations as allowed in § 205.601(a) and 205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

Crop Products: Wetting Agents

Brandt Organics Ag Aide Spreader Activator (cle-6305)

Crop Products: Zinc Products

Brandt Organics 7% Zn Liquid Complexed Micronutrients (cle-4477) 1
May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Organics 10% Zn Liquid Complexed Micronutrients (cle-4478) 1
May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Brandt Zinc Sulfate - Powder (cle-11221) 1
May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Biopesticides

Viola CS (cnc-10852) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Cann-Care RotSTAR Disease Control Concentrate (cnc-10851) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Cann-Care QueSTAR BioFungicide (cnc-10845) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

Cann-Care AzaPRO (cnc-10687) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Dioxide

CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-2220) 1
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Dioxide

CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-2221) 1
Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Processing Products: Chlorine Materials

CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-1857) 1
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Crop Products: Bacillus thuringiensis

Thuricide® HPC-O for Home & Gardens Biologica Insecticide Easy-to-Mix Liquid Concentrate (ttc-2709) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Thuricide® HPWP Biological Insecticide (ttc-2673) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Condor WP Wettable Powder Bioinsecticide (ttc-2628) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Delfin® WG Biological Insecticide (ttc-0422) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Able® 50 WDG Biological Insecticide (ttc-3186) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Javelin WG Biological Insecticide (ttc-0101) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Agree® WG Biological Insecticide (ttc-8145) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Deliver® Biological Insecticide (ttc-9170) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

CoStar® Biological Insecticide (ttc-1532) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Agree 50WP Biological Insecticide (ttc-6224) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

TRIDENT Biological Insecticide (ttc-7168) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides

MeloCon WG Biological Nematicide (ttc-6525) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides – nonsynthetic

SoilGard® Microbial Fungicide (ttc-0551) 1
May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides

PFR-97™ 20% WDG Microbial Insecticide (ttc-2838) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Double Nickel 55™ Biofungicide (ttc-2901) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Amylo-X Biofungicide (ttc-2980) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Double Nickel LC Biofungicide (ttc-2981) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

LifeGard™ WG Biological Plant Activator (ttc-7169) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

Trilogy XL-O Fungicide/Miticide/Insecticide (ttc-3510) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Nimbus™ Fungicide/Miticide/Insecticide (ttc-2559) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

NeemGard® Fungicide/Miticide/Insecticide (ttc-0493) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Neem Oil RTU Fungicide/Miticide/Insecticide (ttc-4003) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Neemix® 4.5 Insect Growth Regulator Biological Insecticide (ttc-0550) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Trilogy® Fungicide/Miticide/Insecticide (ttc-8073) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Triact® 70 Fungicide/Miticide/Insecticide (ttc-9234) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Bicarbonate

Carb-O-Nator (ttc-6938) 1

May be used for disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap – pesticide

Final-San-O Non-Selective Grass and Broadleaf Herbicide (ttc-2557) 1

May be used as an algicide/demossifier, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

DES-X™ Insecticidal Soap Concentrate (ttc-1763) 1

May be used as an algicide/demossifier, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Seduce® Insect Bait (ttc-1923) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Virus Sprays

CYD-X® HP Insecticidal Virus High Potency Aqueous Suspension Biological Insecticide (ttc-2802) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

CYD-X® Insecticidal Virus An Aqueous Suspension Biological Insecticide (ttc-3084) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Spod-X LC Insecticidal Virus Liquid Concentrate Biological Insecticide (ttc-9822) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Gemstar® LC Insecticidal Virus Liquid Concentrate Biological Insecticide (ttc-9821) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Materials

Oxide+ Deposition Control (che-6620) 1
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, or 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

RTU Oxide + (che-8924) 1
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, or 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Materials

Oxide+ Deposition Control (che-6621) 1
Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

RTU Oxide + (che-8925) 1
Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Processing Products: Chlorine Materials

Oxide+ Deposition Control (che-6622) 1
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

RTU Oxide + (che-8769) 1
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Crop Products: Copper Sulfate

Copper Sulfate Crystals (col-4073) 1
May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Copper Sulfate Crystals (col-4001) 1
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Chlorine Materials

Produce Maxx (sfs-7099) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Crop Products: Adjuvants – for pesticide use

Columbia River B-52 Buffer-Acidifier (crv-10477) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Columbia River Silcote 2000 Organosilicone Surfactant (crv-10478) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Calcium Chloride

Columbia River EcoPro Calcium (crv-10895) 1
Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Magnesium Sulfate – synthetic

Columbia River EcoPro Magnesium (crv-10896) 1

May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Micronutrients – synthetic

Columbia River EcoPro Manganese (crv-10898) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Columbia River EcoPro Micro-Pak (crv-10899) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Columbia River EcoPro Zinc (crv-10900) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Botanical Pesticides

FLY-NOT Insecticida Orgánico Extracto Vegetal de Quilaya Insecticida / Líquido Emulsionable (ans-4581) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

FUBAGRO Fungicida Bactericida Orgánico Extracto Vegetal de Gobernadora + Extracto Vegetal de Pino + Extracto Vegetal de Ácido Cítrico Fungicida / Líquido Emulsionable (ans-4582) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

NEM-OVER Nematicida Orgánico Extracto Vegetal de Pino + Extracto Vegetal de Orégano + Extracto Vegetal de Higuierilla Nematicida / Líquido Emulsionable (ans-4583) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

AGRI-CINNA Insecticida Orgánico Extracto Vegetal de Canela Insecticida Agrícola/Líquido Emulsionable (ans-5503) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BLEEM-30 Repelente e Insecticida Orgánico Extracto Vegetal de Neem + Extracto Vegetal de Ajo Insecticida Agrícola / Líquido Emulsionable (ans-5504) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

FOLI-CU PLUS Sulfato de Cobre Pentahidratado Fungicida Agrícola / Solucion Acuosa (ans-5505) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

BIO BASSB Insecticida Biológico (ans-6573) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BIO BONT Insecticida Biológico (ans-6574) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BIO BOSTER Fungicida Biológico (ans-6575) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BIO FACEF Insecticida Biológico (ans-6576) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BIO FACEL Nematicida Biológico (ans-6577) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BIO MA-BB Insecticida Biológico (ans-6578) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BIO METT Insecticida Biológico (ans-6579) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BIO THORK Fungicida Biológico (ans-6580) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

Masterbac Fungicida/Bactericida (dsn-10806) 1
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides

AgroDiseño FQ 1500 Fungicida/Nematicida (dsn-10568) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Paemyc 112 (dsn-11559) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Trizym 220 (dsn-11519) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BACS 410 (dsn-11501) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BTkur 731 (dsn-11502) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Pyren (dsn-10908) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Chlorine Dioxide

Dutrion Chlorine Dioxide 0.2% Concentrate Tablet (dna-7526) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Crop Products: Copper Sulfate

AgriTec Algaecide/Bactericide (eal-10433) 1
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers – fixed

ET-F Algicide/Bactericide/Fungicide (eal-8838) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Chlorine Materials, Electrolyzed Water

Agua Activada Desy BM Desinfectante (etn-11027) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, or 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops. Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Materials

Agua Activada Desy BM Desinfectante (etn-11028) 1

Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Processing Products: Chlorine Materials, Electrolyzed Water

Agua Activada Desy BM Desinfectante (etn-11029) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Crop Products: Chlorine Dioxide

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10480) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

EnviroChlorite 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10481) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Hydrogen Peroxide

Perasan 'A' Antimicrobial Solution (ent-5117) 1

May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

Peragreen® 5.6% Antimicrobial Solution (ent-7249) 1

May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

Crop Products: Peroxyacetic/Peracetic Acid (CAS #79-21-0)

Peragreen 15% (Antimicrobial Solution) (ent-11505) 1

May only be used for disinfecting facility, processing equipment, seed and asexually propagated planting material. Also permitted in hydrogen peroxide formulations as allowed in § 205.601(a) and 205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

BioSide™ HS 15% (Antimicrobial Solution) (ent-2949) 1

May only be used for disinfecting facility, processing equipment, seed and asexually propagated planting material. Also permitted in hydrogen peroxide formulations as allowed in § 205.601(a) and 205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

Livestock Products: Chlorine Dioxide

MVP 8 For use in poultry, swine and other livestock water (ent-8779) 1

Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-8702) 1

Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

SureCide AH Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10867) 1

Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Processing Products: Acidified Sodium Chlorite

MVP-8 (ANTIMICROBIAL SOLUTION) For Meat, Poultry, Seafood and Produce (ent-8778) 1

Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-8701) 1

Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Processing Products: Peracetic Acid/Peroxyacetic Acid

Perasan 'A' Antimicrobial Solution (ent-5118) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

BioSide™ HS 15% (Antimicrobial Solution) (ent-1708) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP2 Antimicrobial Solution (ent-6349) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP-2C Antimicrobial Solution (ent-6350) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peragreen® 22 Antimicrobial Solution (ent-7289) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peragreen® 5.6% Antimicrobial Solution (ent-7248) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Copper Sulfate

BluMaxx Copper Sulfate Liquid Algicide (ecr-5513) ¹

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Materials

SES® Desinfectante agrícola (est-7429) ¹
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, or 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Materials

SoluVet Bio-Seguridad Desinfectante de alto nivel (est-8688) ¹
Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Processing Products: Detergents

EsteriClean Bio-Seguridad Detergente Sanitizante (est-8684) ¹
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

EsteriClean Agroalimentaria Detergente Sanitizante (est-8550) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Processing Products: Electrolyzed Water

SoluVet Bio-Seguridad Desinfectante de alto nivel (est-8687) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

SES® Conservador de alimentos (est-7427) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

SES® Desinfección de alto nivel (est-7428) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

SES® Desinfectante agrícola (est-7430) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

SES® Desinfectante de alimentos (est-7431) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Crop Products: Adjuvants – for pesticide use

BREAK-THRU A Nonionic Wetter/Spreader/Penetrant Surfactant (deg-2155) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU Break-Thru S 279 A Nonionic Wetter/Spreader/Penetrant Surfactant (deg-5201) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU OE 446 An Organo Modified Siloxane Oil Spreader (deg-5402) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU SP 133 (deg-6109) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU EM O 7 (deg-6079) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

ISOLAN GO 33 (deg-6080) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

TEGO STO 85 V (deg-6081) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU EM O 5 (deg-7096) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU S 200 A Nonionic Wetter/Spreader/Penetrant Surfactant (deg-7097) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU S 301 A Nonionic Wetter/Spreader/Penetrant Surfactant (deg-7098) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Tegoplant (deg-7642) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK THRU® S-233 (deg-7419) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK THRU® S-240 A Nonionic Wetter/Spreader/Penetrant Surfactant (deg-7420) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK THRU S 321 (deg-8212) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

TEGIN O V (deg-8233) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

TEGO SML 20 (deg-11010) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

AERODISP® W 7520 (deg-11260) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

AEROSIL® 200 (deg-11261) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

AEROSIL® R 972 (deg-11262) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

AEROSIL® R 974 (deg-11263) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

AEROSIL® R 812 S (deg-11264) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

SIPERNAT® 22 Precipitated Silica (deg-11266) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

SIPERNAT® 22 S Precipitated Silica (deg-11267) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

SIPERNAT® 50 Precipitated Silica (deg-11268) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

SIPERNAT® 310 Precipitated Silica (deg-11269) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

SIPERNAT® 340 Precipitated Silica (deg-11270) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

SIPERNAT® 350 (deg-11271) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

ZEOFREE® 600 (deg-11272) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU 100 SL (deg-11275) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

ZEOLEX® 7 A (deg-11283) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

ZEOFREE® PLUS 5782 (deg-11284) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

AERODISP® W 7622 (deg-11285) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

BREAK-THRU OE 440 (deg-8583) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

NONIDET SF 3 (deg-10608) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Processing Products: Peracetic Acid/Peroxyacetic Acid

Peraclean® 5 (Peroxyacetic Acid Solution) Sanitizer/Disinfectant (deg-0494) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peraclean® 15 (Peroxyacetic Acid Solution) Sanitizer/Disinfectant (deg-0495) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peraclean 22 CW (deg-5809) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Adjuvants – for pesticide use

Bonne Org Sticker Agent for Use in Organic Production (bri-6389) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Surf Org Wetting/Spreading Agent for Use in Organic Production (bri-6390) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Biopesticides

Ovex Ovicide for Use in Organic Production (bri-6813) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Vermix Nematicide for Use in Organic Production (bri-4946) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bemix Insecticide for Use in Organic Production (bri-3400) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

NemaKill Nematicide for Use in Organic Production (bri-3497) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Fender Nematicide for Use in Organic Production (bri-5379) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended

Nutrisoil-G (bri-5130)

Evergreen Org 3-3-3 (bri-5659)

Nutriplex Org Nutritional Complex Foliar Fertilizer 3-3-3 (bri-10208)

Crop Products: Fertilizers, Blended with micronutrients

Fosfi-Cal Org 1-8-0 (bri-5956) 1

May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Saeta Gold Org 1-8-0 (bri-11638) 1

May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fertilizers, Blended, Potassium Chloride (KCl)

Magnet-B Org 1-6-3 (bri-10804) 1

Fertilizers are restricted if the liquid or solid product contains one or more restricted plant or animal materials as an ingredient. Must be applied in a manner that minimizes chloride accumulation in the soil.

Best-K Org 0-0-13 (bri-10754) 1

Fertilizers are restricted if the liquid or solid product contains one or more restricted plant or animal materials as an ingredient. Must be applied in a manner that minimizes chloride accumulation in the soil.

Crop Products: Fungicides – nonsynthetic

Disease Destroyer Fungicide for Use in Organic Production (bri-4468) 1

May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

ExcelAg, Corp. USA Cyclops Fungicide for Use in Organic Production & Conventional Production (bri-3974) ¹

May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Jaque Mate Fungicide for Use in Organic Production (bri-3392) ¹

May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Kondor Fungicide for Use in Organic Production (bri-5380) ¹

May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Crop Products: Growth Regulators for Plants

Outbreak Plant Growth Regulator for Use in Organic Production (bri-4945) ¹

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides – nonsynthetic

Herbor-G Herbicide for Use in Organic Production (bri-5268) ¹

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils – nonsynthetic sources

Bug Stomper Insecticide for Use in Organic Production (bri-4467) ¹

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Boom! Insecticide for Use in Organic Production (bri-4941) ¹

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Aramite Insecticide for Use in Organic Production (bri-2474) ¹

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bent Insecticide for Use in Organic Production (bri-2690) ¹

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Mitex Termiticide for Use in Organic Production (bri-5381) ¹

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Parasiticides – nonsynthetic, external

Twist Lizard Repellent (bri-4947)

Zig-Zag Natural Oils Insect Repellent (bri-3409)

Tickless Natural Oils Insect Repellent (bri-3603)

Processing Products: Vitamin D3

Brat-G Rodent Bait for Use in Organic Production (bri-3551) ¹

May only be used as a rodenticide in conjunction with the preventative management practices provided for in paragraphs 205.271(a) and (b) of the NOP Rule when those practices are not effective to prevent or control pests alone.

Crop Products: Copper Sulfate

Quimag Quimicos Aguila Copper Sulfate Crystal (fab-0979) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Quimag Quimicos Aguila Copper Sulfate Crystal - Crop (fab-1986) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers – micronutrient

QUIMAG Químicos Águila Fertiazul Sulfato De Cobre Pentahidratado (fab-8239) 1

May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Quimag Quimicos Aguila Copper Sulfate Crystal (fab-0991) 1

May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Livestock Products: Copper Sulfate

Quimag Quimicos Aguila Copper Sulfate Crystal (fab-7082) 1

May be used as feed additives and supplements. May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. May not be used to stimulate growth or production.

Crop Products: Chlorine Dioxide

GC 30 (gcr-11069) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Adjuvants – for pesticide use

Kinetic Nonionic Surfactant and Silicone Surfactant Blend (hcc-8931) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Kinetic® A Nonionic Wetter/Spread/er/Penetrant Adjuvant (hcc-2663) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Iron Products

EcoMate® Iron 5% (hcc-2886) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Magnesium Sulfate – synthetic

EcoMate Magnesium 4% (hcc-5235) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Manganese Products

EcoMate® Manganese 5% (hcc-2913) 1
May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Micronutrients – synthetic

EcoMate® Crop Mix (hcc-3286) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Oils, Petroleum-Based – narrow range

OMNI SUPREME SPRAY (INSECTICIDE-MITICIDE) LIQUID (hcc-2461) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

OMNI Oil 6 (Insecticide-Miticide) Liquid (hcc-6699) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Zinc Products

EcoMate® Zinc 10% (hcc-2862) 1
May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Adjuvants – for pesticide use

Suppressor 3112 (hyc-8365) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Processing Products: Chlorine Materials

San-I-King, No. 451 Liquid Sodium Hypochlorite (hyc-1129) 1
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Processing Products: Defoamers

Suppressor ORG60 (hyc-10266)
Suppressor ORG80 (hyc-10267)

Processing Products: Peracetic Acid/Peroxyacetic Acid

Hydroxysan Plus (hyc-6369) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

HydriShield PA 22 HP (hyc-11517) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Aquatic Plant Products – synthetically extracted

Idai Almar (ida-7645)

Crop Products: Botanical Pesticides

Nemacem (ida-4852) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

System Max (ida-4639) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Vegex Clean Soil (ida-6426) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Vegex Repelex (ida-6380) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Vegex Kuneka (ida-6342) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Naturdai Mim (ida-6284) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Spider Max (ida-5603) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Capsi Plus (ida-5604) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Vegex White Fly (ida-7646) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Combat Plus (ida-7328) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Santem (ida-11518) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Carbonate

Idai CA Soil (ida-7472)

CA ORGANIC (ida-8452)

Crop Products: Copper Sulfate

System CU (ida-5605) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Umbral (ida-7475) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended

Idai Fertireg Extra (ida-7473)

Crop Products: Fungicides – nonsynthetic

Naturdai Equibasic (ida-6341) 1

May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Equi Max (ida-5602) 1

May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Crop Products: Iron Sulfates

Idai Algafer (ida-7698) 1

May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Micronutrients – synthetic

Bioaluminium Mezcla Líquida con Micronutrients Complejados con Cobre (Cu), Manganeseo (Mn) y Zinc (Zn) (ida-4851) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Idai Brotaverd (ida-6283) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

BIOAZUFRE (ida-8451) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Naturdai Bio-S (ida-8261) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Molasses

Idai Fertireg (ida-7474)

FULVIORGANIC (ida-8453)

Crop Products: Potassium Chloride (KCl)

Idai K Plus (ida-10662) 1

Must be applied in a manner that minimizes chloride accumulation in the soil.

Crop Products: Botanical Pesticides

Scary Garlic Plus (asj-3372) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventative, mechanical, physical, and other
pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

Cinnapro Natural Miticide (asj-3774) 1
May be used as a pest lure, repellent, or as part
of a trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventative, mechanical, physical, and other
pest, weed, and disease management practices.

Crop Products: Soap – pesticide

KOCH Potassium Soap Pesticide and
Acraricide (asj-3631) 1
May be used as an algicide/demosser, herbicide
or insecticide if the requirements of §205.206(e)
are met, which requires the use of preventative,
mechanical, physical, and other pest, weed, and
disease management practices. When used as an
herbicide may only be used for farmstead
maintenance (roadways, ditches, right of ways,
building perimeters) and ornamental crops.

Crop Products: Copper Sulfate

Mastercop Bactericide/Fungicide (iis-7534) 1
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

management practices. Must be used in a
manner that minimizes copper accumulation in
the soil and shall not be used as herbicides.

Kentan® DF Dry Flowable
Fungicide/Bactericide (isa-7685) 1
May be used for plant disease control if the
requirements of 205.206(e) are met, which
requires the use of preventative, mechanical,
physical, and other pest, weed, and disease
management practices. Must be used in a
manner that minimizes copper accumulation in
the soil and shall not be used as herbicides.

Crop Products: Trichoderma spp.

Tenet™ WP (isa-1594) 1
May be used if the requirements of 205.206(e) are
met, which requires the use of preventative,
mechanical, physical, and other pest, weed, and
disease management practices.

Bio-Tam 2.0 (isa-5373) 1
May be used if the requirements of 205.206(e) are
met, which requires the use of preventative,
mechanical, physical, and other pest, weed, and
disease management practices.

Crop Products: Adjuvants – for pesticide use

pht® Ad-Here SP Deposition Aid (jrs-3825) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Plant Health Technologies Vestis Silicone Surfactant (jrs-6537) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Plant Health Technologies Elimino Antifoaming Agent/Defoaming Agent (jrs-6780) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Plant Health technologies BB5 NC Acidifier/Surfactant/Humectant (jrs-9007) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Bacillus thuringiensis

pht® Bt Dust (jrs-4756) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Chloride

pht Soilcal Soil and Water Amendment (jrs-0866) 1
Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Copper Sulfate

Water Guard WG 2500 Algacide/Bactericide (jrs-6782) 1
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers – fixed

pht Copper Sulfur Dust Fungicide (jrs-0799) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

pht® Copper Sulfur 15-25 Dust (jrs-4757) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Oils, Petroleum-Based – narrow range

pht 440 Supreme Spray Oil (jrs-2883) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Sulfur – elemental

pht® Bt 25 Sulfur Dust (jrs-4755) 1
May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

phat® Dryout Dust (jrs-4758) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Peracetic Acid/Peroxyacetic Acid

Water Guard WG 5500 (jrs-7302) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Gardner & Bloome G&B Organics Eden Valley Blend Paradise All Purpose Fertilizer 5-5-5 Micro Life Pellets (ksi-8672)

Crop Products: Fertilizers, Blended with micronutrients

Master Nursery Gold Medal Plus Organic Potting Soil (ksi-4976) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Raised Bed & Potting Mix (ksi-5298) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Composted Chicken Manure (ksi-6131) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Native Planting Mix (ksi-6176) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Farmyard Blend with Blended Manures (ksi-7744) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Harvest Supreme Premium Soil Amendment with 15% Chicken Manure (ksi-7745) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Palm, Cactus & Citrus Planting Mix (ksi-7748) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Planting Mix Premium Garden Soil (ksi-7749) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Premium Topsoil Garden Quality Soil (ksi-7751) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Gardner & Bloome G&B Organics Rose & Flower Planting Mix (ksi-7753) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Master Nursery Bumper Crop Soil Builder (ksi-8708) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Master Nursery Gardener's Choice Planting Mix (ksi-8709) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Master Nursery Rose Planting Mix (ksi-8710) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Iron Products, Potting Soil

Gardner & Bloome G&B Organics Acid Planting Mix (ksi-7742) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. Potting soil that contains a restricted material must meet the restrictions of that ingredient.

Gardner & Bloome G&B Organics Blue Ribbon Blend Premium Potting Soil (ksi-7743) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. Potting soil that contains a restricted material must meet the restrictions of that ingredient.

Gardner & Bloome G&B Organics Potting Soil For Indoor & Outdoor Potting (ksi-7750) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. Potting soil that contains a restricted material must meet the restrictions of that ingredient.

Master Nursery Acid Planting Mix (ksi-8707) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. Potting soil that contains a restricted material must meet the restrictions of that ingredient.

May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Ant Control (lgp-4674) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Iron Products

Monterey Dr. Iron® (lgp-0268) 1 @
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Magnesium Sulfate – synthetic

Monterey Epsom Salts (lgp-0376) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Microbial Pesticides

Monterey Complete Disease Control Brand RTU Biofungicide/Bactericide (lgp-6454) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Complete Disease Control Brand Biofungicide/Bactericide (lgp-6455) 1
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

Monterey 70% Neem Oil Fungicide•Insecticide•Miticide (lgp-0295) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Neem Oil RTU (lgp-2176) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Fruit Tree Spray Plus Broad Spectrum Insecticide, Fungicide, and Miticide (lgp-3720) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Rose & Flower Spray Plus Broad Spectrum Insecticide, Fungicide, and Miticide (lgp-5377) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Nematicides – nonsynthetic

Monterey Nematode Control (lgp-3282) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Petroleum-Based – narrow range

Monterey Horticultural Oil (lgp-2574) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Bicarbonate

Monterey Bi-Carb Old Fashioned Fungicide (lgp-4120) 1

May be used for disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Monterey Bug Buster-O (lgp-4823) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap – pesticide

Monterey Garden Insect Spray RTU (lgp-5689) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Monterey Garden Insect Spray (lgp-0034) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Bacillus thuringiensis

Thurin 12 Bacillus Thuringiensis Insecticida Polvo Humectable (ldg-5315) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers – fixed

F15 Fungilid 15 Fungicida-Bactericida en Suspensión Acuosa (ldg-5834) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Croper Fungicida Bactericida (ldg-10110) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Fungicides – nonsynthetic

Bactrone esporas de Bacillus subtilis fungicida biológico polvo mojable (ldg-8807) 1

May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides

Gliocide Fungicida Biológico Polvo Mojable (ldg-5698) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Mixene Fungicida Biológico Polvo Mojable (ldg-5699) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Trichoderma spp.

Esporalis Fungicida Biológico Polvo Mojable (ldg-5314) 1

Crop Products: Copper Sulfate

Alonglife Algaecide/Bactericide/Fungicide (lsg-5470) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

RiceGuard Algaecide (lsg-8205) 1

Crop Products: Anaerobic Digestate – from manure feedstock

Magic Dirt Organic Garden Soil (cen-6077) ¹
Products of anaerobic digestion produced with manure feedstocks are subject to the same restrictions as raw, uncomposted manure. They may only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

Crop Products: Potting Soil, Anaerobic Digestate – from manure feedstock

Magic Dirt Organic Premium Potting Soil (cen-5334) ¹
Potting soil that contains a restricted material must meet the restrictions of that ingredient. Products of anaerobic digestion produced with manure feedstocks are subject to the same restrictions as raw, uncomposted manure. They may only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

Crop Products: Copper Sulfate

Mastercop Bactericide/Fungicide (ada-10056) ¹
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Acid Activators for Chlorine Dioxide

Maquisa Biocid-Oxilor Parte 2 Solución Activadora (mqi-6686) ¹
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.605(b). May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Sanitek Sanibiox 2 Solución Activadora (Parte 2/2) (mqi-6690) ¹

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.605(b). May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Processing Products: Calcium Hypochlorite

Maquisa Bioclor 65 (mqi-6565) ¹
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Sanitek Saniclor Hipoclorito De Calcio Al 65% (mqi-6566) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Processing Products: Chlorine Dioxide

Maquisa Biocid Oxiclor Parte 1 Sanitizante De Amplio Espectro a Base de Dióxido de Cloro Activo (mqi-6685) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Sanitek Sanibox 1 Sanitizante de Amplio Espectro a Base de Dióxido de Cloro Activo (Parte 1/2) (mqi-6689) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Processing Products: Detergents

Maquisa Biodett-450 Detergente Super Concentrado Biodegradable, Limpiador y Desengrasante (mqi-6687) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Sanitek Biosafe 2 Desengrasante Concentrado Biodegradable (mqi-6688) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Maquisa Álkali Fom Detergente Alcalino Concentrado Espumante (mqi-6700) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Sanitek Sanifoam Detergente Alcalino Concentrado Auto Espumante (mqi-6701) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Maquisa Acidet Fom 500 Detergente Ácido Espumante (mqi-6702) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Sanitek Acid Foam 2 Detergente Ácido Super Espumante (mqi-6703) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Maquisa Álkali-Clor Detergente Alcalino Clorado Super Espumante (mqi-6412) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Sanitek Sanifoam C Detergente Alcalino Clorado Auto Espumante (mqi-6415) 1
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Processing Products: Fruit and Vegetable Wash – post-harvest

Maquisa Biocid Citrus Sanitizante a Base de Extractos de Semillas de Frutos Cítricos (mqi-6413) 1
Only for use in post-harvest handling of raw agricultural commodities.

Sanitek Sanicitrus Sanitizante a Base de Extractos De Semillas de Frutos Cítricos (mqi-6416) 1
Only for use in post-harvest handling of raw agricultural commodities.

Processing Products: Peracetic Acid/Peroxyacetic Acid

Maquisa Biocid FV (mqi-5826) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Sanitek Saniperox FV (mqi-5897) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Maquisa Biocid-Oxy Desinfectante Concentrado de Acción Inmediata (mqi-6414) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Sanitek Saniperox Sanitizante a Base de Ácido Peracético (mqi-6417) 1
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Biopesticides

MBI-601 EP (moi-7452) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo (moi-2794) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo™ PTO (moi-3856) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Ennoble Biofumigant (moi-11395) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides, Fermentation Products – pesticides, Seed Treatments, Microbial Pesticides

GRANDEVO® ST (moi-11644) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides, Fungicides – nonsynthetic

MBI-110 EP Broad-spectrum biofungicide/bactericide Aqueous Suspension (moi-8108) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Amplitude Biofungicide (moi-10240) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Stargus Biofungicide (moi-10243) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Amplitude ST Broad-spectrum biofungicide/bactericide Aqueous Suspension (moi-11394) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

FMC Regalia Maxx Extracto de Reynoutria sachalinensis Fungicida / Suspensión Concentrada (moi-5446) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Regalia 12 Biofungicide (moi-5307) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Regalia® PTO Biofungicide (moi-3854) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Regalia® Rx Biofungicide (moi-3855) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Regalia® Maxx Biofungicide Concentrate (moi-1711) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Regalia® Biofungicide (moi-1575) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Regalia CG Biofungicide (moi-10242) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Reysana Biofungicide (moi-10057) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Regalia Maxx 20 SC Fungicida-Botánico (moi-11396) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides**MBI-203 WDG (moi-6266) 1**

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo WDG Bioinsecticide (moi-7140) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo CG Bioinsecticide (moi-10241) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products**Majestene Bionematicide (moi-6393) 1**

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

MBI-206 EP (moi-7141) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Venerate™ XC Bioinsecticide (moi-4939) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Venerate Bioinsecticide (moi-3903) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Venerate CG Bioinsecticide (moi-10244) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Zelto (moi-10245) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Dioxide

Dioxi Kleen 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (mer-11020) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Hydrogen Peroxide

Oxyleaf (Antimicrobial Solution) (mer-2959) 1
May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

OxyGreen 5 Antimicrobial Solution (mer-7445) 1

May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

Crop Products: Acid Activators for Chlorine Dioxide

FreshFlo 100 Acid Activators for Chlorine Dioxide (mix-8627) 1
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act, except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Acid Activators for Chlorine Dioxide

FreshFlo 100 Acid Activators for Chlorine Dioxide (mix-8628) 1
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(7). Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Crop Products: Adjuvants – for pesticide use

NB-ACTIVATOR Adherent Dispensante Penetrante (nbt-10209) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Botanical Pesticides

NB TRIPER (nbt-10272) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

NB FUNBAC 27 S Fungicida/Concentrado Emulsionable (nbt-10268) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

NB NATU-CROP Insecticida Biológico Agrícola (nbt-10269) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

NB QUARECZ Agente de Control Biológico - Polvo Humectable (nbt-10270) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

NB TIME CONTROL Biofungicida (nbt-10271) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

NB Z-CROP Biofungicida (nbt-10273) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives – natural

NB-Neem 100% Aceite Puro de Neem (nbt-10360)

Crop Products: Pyrethrum

Titan-Force Insecticida natural de Piretrina (nbt-11586) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Cobre Nordox 75 WG Fungicida Cúprico de Alta Concentración (nor-7659) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Redshield 750 Fungicida-Bactericida Inorganico Granulos Dispersables (WG) (nor-7660) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

NORDOX 30/30 WG (nor-1337) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

NORDOX 75 WG Wettable Granule Fungicide (nor-3171) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Livestock Products: Minerals – feed

Mineralate Cu Feed Additive (ntb-10793) 1
May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Mineralate Mn Feed Additive (ntb-10794) 1
May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Mineralate Poultry Pack (ntb-10795) 1
May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Mineralate ZMC Feed Additive (ntb-10796) 1
May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Mineralate Zn 20 Feed Additive (ntb-10797) 1
May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

NuSOL Poultry Feed Supplement (ntb-11123)

1
May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Crop Products: Adjuvants – for pesticide use

BB5 NC Acidifier/Surfactant (ntl-7570) 1
EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Boron Products – synthetic

Enviro Boron (ntl-7665) 1
May be used as a plant or soil amendment if soil deficiency of boron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

SprayBor Lite (ntl-2027) 1
May be used as a plant or soil amendment if soil deficiency of boron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Boron Products – synthetic, Magnesium Sulfate – synthetic

MagMax Lite A Magnesium and Boron True Solution for use in Organic Production (ntl-2689) 1
May be used as a plant or soil amendment if soil deficiency of boron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Calcium Chloride

Enviro Calcium A Calcium True Solution chelated with carbohydrate acids (ntl-7641) 1
Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake.

CalciMax Lite (ntl-2098) 1
Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Calcium Chloride, Potassium Chloride (KCl)

Enviro Alexin (ntl-11216) 1
Permitted only as a foliar spray to treat a physiological disorder associated with calcium uptake. Must be applied in a manner that minimizes chloride accumulation in the soil.

Crop Products: Copper Sulfate

CuMax Lite A Copper True Solution for use in Organic Production (ntl-2439) 1
May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Columbia River EcoPro Copper (ntl-4765) 1
May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Enviro Copper A copper true solution (ntl-8974) 1
May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Fertilizers, Blended

Macro Lite 12-0-1 (ntl-6808)
Enviro 12-0-1 (ntl-7664)
NPK Lite 12-0-1 (ntl-4761)

Crop Products: Fertilizers, Blended, Potassium Chloride (KCl)

Macro Lite 5-0-20 (ntl-6809) 1
Fertilizers are restricted if the liquid or solid product contains one or more restricted plant or animal materials as an ingredient. Must be applied in a manner that minimizes chloride accumulation in the soil.

Enviro 5-0-20 (ntl-7663) 1
Fertilizers are restricted if the liquid or solid product contains one or more restricted plant or animal materials as an ingredient. Must be applied in a manner that minimizes chloride accumulation in the soil.

EcoPro 5-0-20 Columbia River (ntl-4763) 1
Fertilizers are restricted if the liquid or solid product contains one or more restricted plant or animal materials as an ingredient. Must be applied in a manner that minimizes chloride accumulation in the soil.

NPK Lite 5-0-20 A Soluble NK Fertilizer for use in Organic Production (ntl-3971) 1
Fertilizers are restricted if the liquid or solid product contains one or more restricted plant or animal materials as an ingredient. Must be applied in a manner that minimizes chloride accumulation in the soil.

Crop Products: Iron Products

Enviro Iron A Iron True Solution (ntl-10263) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Magnesium Sulfate – synthetic

Enviro Magnesium A Magnesium True Solution chelated with carbohydrate acids (ntl-7755) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Micronutrients – synthetic

Enviro Zinc A Zinc True Solution chelated with carbohydrate acids (ntl-7756) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Enviro Manganese A Manganese True Solution chelated with carbohydrate acids (ntl-7629) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

MangaMax Lite (ntl-2307) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

ZincMax Lite (ntl-2089) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Potassium Chloride (KCl)

Enviro Potassium A Potassium True Solution (ntl-7766) 1
Must be applied in a manner that minimizes chloride accumulation in the soil.

K-Max Lite 0-0-14.5 (ntl-2263) 1
Must be applied in a manner that minimizes chloride accumulation in the soil.

EcoPro Potassium Columbia River (ntl-4768) 1
Must be applied in a manner that minimizes chloride accumulation in the soil.

Crop Products: Zinc Products

Org Zinc A zinc true solution (ntl-11441) 1
May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Copper Sulfate

Ocion ICC Ionic Copper Concentrate (ocn-5303) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Ocion Polidex 5 SL Fungicida, Bactericida-Inorgánico Sulfato de Cobre Pentahidratado (ocn-5304) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Ocion PT81 Algicide/Bactericide/Fungicide (ocn-5305) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. Crop Products: Bacillus thuringiensis

Thuricide N/G Biological Insecticide (ohp-8833) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers – fixed

KALMOR Fungicide/Bactericide Dry Flowable (ohp-11389) 1

May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Microbial Pesticides

Triathlon BA Aqueous Suspension Biofungicide/Bactericide (ohp-6962) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ANCORA Microbial Insecticide (ohp-8735) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

Azatin® O Biological Insecticide (ohp-3970) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Triact® 70 Fungicide/Insecticide/Miticide (ohp-7175) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Pycana Insecticide/Miticide (ohp-11175) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap – pesticide

KOPA Insecticidal Soap Insecticide/Miticide/Fungicide (ohp-8736) 1

May be used as an algicide/demossor, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Copper Sulfate

Copper Sulfate Fine Crystals (olb-4647) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

OB Old Bridge Chemicals Copper Sulfate (olb-3792) 1

May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Zinc Products

OBC Old Bridge Chemicals Inc. Zinc Sulfate (olb-3954) 1

May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Livestock Products: Copper

Copper Carbonate Feed Grade (olb-4649) 1

May be used as feed additives and supplements. May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. May not be used to stimulate growth or production.

Livestock Products: Copper Sulfate

Copper Sulfate (olb-4645) 1

May be used as feed additives and supplements. May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. May not be used to stimulate growth or production.

Copper Sulfate (olb-4646) 1

For use as a topical treatment, external parasiticide or local anesthetic as applicable. May only be used in organic livestock production if the requirements of 205.238 are met.

Livestock Products: Zinc Sulfate

OBC Old Bridge Chemicals Inc. Zinc Sulfate (olb-3955) 1

May be used as feed additives and supplements. May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. May not be used to stimulate growth or production.

Crop Products: Chlorine Dioxide

ProKure V Cultivator Liquid Mold & Mildew Eliminator (pks-7120) 1
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Processing Products: Acidified Sodium Chlorite

ProKure V Liquid Deodorizer/Disinfectant/Fungicide (pks-7136) 1
Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Crop Products: Iron Products, Iron Sulfates

QC Diamond Brand Ferrous Sulfate Heptahydrate (No Anti-caking) (qcc-5876) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Ferrous Sulfate Heptahydrate Solu-Grade (without Anti-Caking) (qcc-5879) 1

May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Ferrous Sulfate Heptahydrate (with Anti-caking) (qcc-5880) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Coarse Granular Ferrous Sulfate Monohydrate (qcc-5881) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Fine Granular Ferrous Sulfate Monohydrate (qcc-5882) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Standard Ferrous Sulfate Monohydrate (qcc-5883) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Livestock Products: Ferrous Sulfate, Iron, Iron Sulfate

QC Diamond Brand Ferrous Sulfate Heptahydrate (No Anti-caking) (qcc-5878) 1
May be used as feed additives and supplements. May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. May not be used to stimulate growth or production. May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Source of iron and sulfur. May not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Crop Products: Coppers – fixed

Technical Copper Oxochloride (qin-5966) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Sulfur – elemental

ACOIDAL Fungicide-Miticide Micronized Wettable Sulphur WDG (Water Dispersable Granule) (qin-4634) 1
May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Defend DF Micronized Wettable Sulphur WDG (Water Dispersible Granule) (qin-4443) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Sulphur Technical (qin-6623) 1
May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Chlorine Materials

RMC Chlorguard Chlorinating Solution (rmc-6020) ¹

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Processing Products: Detergents

RMC F-196 Extra Heavy Duty Alkaline Foam Cleaner (rmc-6021) ¹

Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

RMC Power Foam ALS Chlorinated Alkaline Cleaner (rmc-6022) ¹

Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

RMC Enviro Care Sudsation (rmc-7131) ¹
Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

RMC Enviro Care Tough Job Cleaner (rmc-7132) ¹

Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

RMC FS Auto Dish Clean Aluminum Safe Alkaline Cleaner (rmc-7133) ¹

Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

RMC FS Heavy Clean High Foaming Degreaser (rmc-7134) ¹

Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

RMC Proxi Concentrate Hydrogen Peroxide-Based Multi Surface Cleaner (rmc-7135) ¹

Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

RMC Grease Kleen Heavy Duty Degreaser (rmc-10234) ¹

Considered to meet the requirements under NOP Rule § 205.105(c) provided that measures are taken to prevent contact with the organically produced products or ingredients.

Processing Products: Peracetic Acid/Peroxyacetic Acid

Enviroguard MP-2 Antimicrobial Solution (rmc-2719) ¹

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

RMC Enviroguard Sanitizer Antimicrobial Solution (rmc-3580) ¹

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Acid Activators for Chlorine Dioxide

SAFE-pHix brand LpH 100 Activator & Adjuvant (ath-6958) 1
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act, except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Acid Activators for Chlorine Dioxide

SAFE-pHix brand LpH 100 Activator & Adjuvant (ath-7609) 1
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(7). Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

SAFE-pHix brand ACT 50 "Activator & Adjuvant" (ath-8177) 1
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(7). Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Crop Products: Adjuvants – nonsynthetic

SaferGro® pH Down pH Adjuster - Complexing Agent (sli-2531)

Crop Products: Boron Products – synthetic

SaferGro® Biomin® Boron 1-0-0 (sli-2517) 1
May be used as a plant or soil amendment if soil deficiency of boron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Botanical Pesticides

SaferGro® Pest Out Ready to Use (sli-4911) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro Mildew Cure Fungicide for Powdery Mildew Control Ready To Use (sli-3528) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro Ant Out Botanical Insecticide Ready To Use (sli-3530) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® Pest Out (sli-2512) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® Ant Out Botanical Insecticide Concentrate (sli-2513) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® Mildew Cure® (sli-2514) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® No Moss® (sli-2516) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium – nonsynthetic sources

SaferGro® Biomin® Calcium 1-0-0 Complexed Nutrient For Soil and Foliar Application (sli-2518)

Crop Products: Coppers – micronutrient

SaferGro® Biomin® Copper 1-0-0 Complexed Micronutrient For Soil And Foliar Application (sli-2519) 1

May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fertilizers, Blended with micronutrients

SaferGro® Biomin Cal-Boro 1-0-0 Minerals For Soil and Foliar Application (sli-2511) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fish Products, Liquid – stabilized

SaferGro Aqua Power Organic Fish Fertilizer 5-1-1 (sli-3532)

Crop Products: Garlic

SaferGro Biorepel Natural Insect Repellent Ready To Use (sli-3531) 1
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® Biorepel Natural Insect Repellent Concentrate (sli-2524) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides – nonsynthetic

SaferGro Weed Zap Non-Selective Herbicide For Annual Grasses and Weeds Ready To Use (sli-3529) 1

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

SaferGro® Weed Zap Non-selective Herbicide For Annual Grasses And Weeds Concentrate (sli-2530) 1

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Humic Acids – alkali extracted

SaferGro® Humax (sli-2525)

Crop Products: Iron Products

SaferGro® Biomin® Iron 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2520) 1

May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Magnesium Sulfate – synthetic

SaferGro® Biomin® Magnesium 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2521) 1

May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Manganese Products

SaferGro® Biomin® Manganese 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2522) 1

May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Microbial Inoculants

SaferGro Mycormax™ Biological Inoculum (sli-7291)

Crop Products: Micronutrients – synthetic

SaferGro® Promot MZM Organic Starter Fertilizer (sli-2529) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Wetting Agents

SaferGro® Natural Wet Wetting Agent (sli-2527)

Crop Products: Zinc Products

SaferGro® Biomin® Zinc 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2523) 1

May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Botanical Pesticides

Seican (sia-10617) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Biocinnafol (sia-11244) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Cinnerate (sia-4745) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers – micronutrient

Glucosei (sia-7702) 1

May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fermentation Products

Multisei (sia-10338)

Crop Products: Fertilizers, Blended

Kynetic4 (sia-7703)

Terrasei Engorde (sia-7706)

Crop Products: Iron Sulfates

Seipafol Fe (sia-7704) 1

May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Microbial Pesticides

AVIV (sia-8995) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Amicos (sia-6515) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Prevont (sia-6516) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Fungisei (sia-5813) 1

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Micronutrients – synthetic

Superbrotal (sia-7705) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Plant Extracts

Seinema Liquid Fertilizer (sia-3824)

Crop Products: Pyrethrum

Biocrifol Piretrinas Insecticida/Concentrado Emulsionable (sia-11245) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Pirecris Piretrinas Insecticida/Concentrado Emulsionable (sia-5192) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Zinc Products

Seipa System (sia-7701) 1

May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Chlorine Dioxide

Selectrocide® 12G (smt-6719) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Selectrocide® 2L500 (smt-6720) 1

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Processing Products: Chlorine Materials

Selectrocide® 2L500 (smt-2339) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Selectrocide® 12G (smt-2340) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Processing Products: Chlorine Materials, Acidified Sodium Chlorite

Selectrocide® -Pouch 200MG- (smt-2834) ¹
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Selectrocide® A5 (smt-7602) ¹
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

CIO2bber 100 Abridged Disinfectant/Sanitizer/Virucide/Fungicide/Algicide/Slimicide/Deodorizer (smt-5288) ¹
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Selectrocide A12 (smt-6541) ¹
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Fit Fresh Antimicrobial Produce Wash (smt-10916) ¹
May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Processing Products: Fruit and Vegetable Wash – post-harvest

smt Limitless Clean Sapindus Mukorossi Selective Micro Multi-Surface Fruit and Vegetable Wash (smt-11018) ¹
Only for use in post-harvest handling of raw agricultural commodities.

Crop Products: Coppers – fixed

Camelot O Fungicide/Bactericide Flowable Liquid Copper Fungicide (sep-2327) ¹
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

CuPRO 5000 Fungicide/Bactericide Dry Flowable (sep-8711) ¹
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Microbial Pesticides

Preferal Microbial Insecticide (sep-3313) ¹
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Zio Fungicide (sep-7681) ¹
May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Sodium Carbonate Peroxyhydrate

PAK 27 Algaecide (sep-5158) ¹
Permitted as an algicide. Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. May only be used as an algicide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chitin – pesticide

Terra Healer Nematicida Fungicida (smr-11109) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes, such as nematicidal purposes, if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

CuProtective Fungicida Bactericida (smr-11041) 1

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Armorex Natural Nematicide, Fungicide, and Insecticide (stc-10956) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides – nonsynthetic

Fungastop Broad Spectrum Antifungal Concentrate (stc-10651) 1
May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Permatrol Spray For Powdery Mildew Control (stc-8846) 1
May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Bio-Folar Broad Spectrum Antifungal Concentrate (stc-11317) 1
May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Eureka Broad Spectrum Antifungal Concentrate (stc-11318) 1
May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Fungastop L&G Broad Spectrum Antifungal Concentrate (stc-11540) 1
May be used as a pesticide for disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May also be used for post-harvest handling of raw agricultural commodities.

Crop Products: Herbicides – nonsynthetic

Phydura Herbicide Concentrate (stc-7700) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Chlorine Materials, Fruit and Vegetable Wash – post-harvest, Egg Wash – Allowed with Restrictions

Spartan SparCHLOR Chlorinated Sanitizer (spt-8905) 1

May be used in direct contact with post-harvest crop or food at levels approved by the Food and Drug Administration or the Environmental Protection Agency for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, chlorine materials may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Only for use in post-harvest handling of raw agricultural commodities. Egg washes are restricted if the product contains one or more restricted materials as an ingredient.

Processing Products: Peracetic Acid/Peroxyacetic Acid

PAA Sanitizer FP Peroxyacetic Acid Solution (spt-8693) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Spartan PAA Sanitizer (spt-11413) 1

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Processing Products: Sodium Hydroxide

Eggs So Clean pH Booster (spt-8692) 1
May not be used in lye peeling of fruits and vegetables.

Crop Products: Adjuvants – for pesticide use

Natur'I Oil Vegetable Oil Spray Adjuvant (sei-6136) 1

EPA Inert Ingredients on EPA's List 4 may be used as an adjuvant or inert ingredient in combination with permitted active pesticidal ingredients. List 3 inert ingredients may only be used only in passive pheromone dispensers.

Crop Products: Copper Sulfate

White Label 5% Copper with 3% Sulfur (sei-2288) 1

May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Gibberellic Acid

N-Large Plus Plant Growth Regulator Solution (sei-10117) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

N-Large Premier Plus Plant Growth Regulator Solution (sei-10118) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

X-Pand Plant Growth Regulator Solution (sei-10119) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

N-Large Premier Plant Growth Regulator Solution (sei-5176) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

N-Large Plant Growth Regulator Solution (sei-0351) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Humic Acids – alkali extracted

Charge 12% Concentrated Humic Acid (sei-8767)

Charge SP Humic Acid (sei-8768)

Crop Products: Iron Products

White Label 5% Iron with 4% Sulfur (sei-0258) 1

May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Magnesium Sulfate – synthetic

White Label 4% Magnesium with 5% Sulfur (sei-2614) 1

May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Crop Products: Manganese Products

White Label 5% Manganese with 4% Sulfur (sei-9376) 1

May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Micronutrients – synthetic

White Label Field Crop Mix (sei-0216) 1

May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Oils – nonsynthetic sources

Golden Pest Spray Oil (sei-8188) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Zinc Products

White Label 10% Zinc with 5% Sulfur (sei-9340) 1

May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Processing Products: Lecithin – de-oiled

Suez Steamate* FM1007 (swt-11461) 1
Nonorganic de-oiled lecithin may be used in processed products labeled as 'Made with Organic [specified ingredients]' provided that the de-oiled lecithin is not produced or handled with the use of sewage sludge, genetic engineering, genetically modified organisms (GMOs), or ionizing radiation. Nonorganic de-oiled lecithin may also be used in or on processed products labeled as 'organic' only when the certifier determines that the ingredient is not commercially available in an organic form and that it meets the requirements of §205.301(b) and §205.301(f).

Forcrop Solum H20 Humic Acids (sso-5398)

Crop Products: Iron Products

coda-Fe-L Iron Complexed Fertilizer Solution (sso-1634) 1

May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

forcrop FOLCROP Fe Complexed Iron Solution (sso-8078) 1

May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Soap – pesticide

Forcrop Protec K Potassium Soap (sso-6897) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

e codaoleo K Potassium Soap (sso-6893) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Zinc Products

coda-Zn-L Complexed Zinc Solution (sso-7060) 1

May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

forcrop FOLCROP Zn Complexed Zinc Solution (sso-8093) 1

May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Soap – pesticide

Ortho GroundClear Weed & Grass Killer (ort-11515) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

NNS 8766314 Concentrate (ort-11636) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Ortho GroundClear Weed & Grass Killer1 Concentrate (ort-11637) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Sticky Traps and Barriers

Tanglefoot Ready To Use Tree Tanglefoot Insect Barrier (ort-0118) 1

May be used as an insecticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Acid Activators for Chlorine Dioxide

TwinOxide 0.3% ClO₂ Solution Component B Sodium Bisulfate Powder Composition (gct-10872) 1

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.605(b). May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

Processing Products: Chlorine Dioxide

TwinOxide 0.3% ClO₂ Solution Component A Sodium Chlorite Powder Composition (gct-10801) 1

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions.

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

PROGRANIC® Piretro Extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-7616) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BioPow® argemonina, berberina, ricina y a-terthienil Insecticida Botánico/Extracto Acuoso (uqa-8771) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

CYR® Omega Extracto de chicalote (Argemone mexicana) Insecticida Botánico/Concentrado Emulsionable (uqa-8772) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

CYR® Piretrinas Extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-8773) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Progranic® LarreaT® extracto de gobernadora (Larrea tridentata) Fungicida y Bactericida Botánico/Líquido Soluble (uqa-8774) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Progranic® Tagetes® Extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-8776) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

PROGRANIC® Nimicide 80 extracto de aceite de neem Insecticida/Concentrado Emulsionable (uqa-2975) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

CYR Neem 80 CE extracto de aceite de neem Insecticida/Concentrado Emulsionable (uqa-3465) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Naturacide NEEM CE 80 extracto de aceite de neem Insecticida/Concentrado Emulsionable (uqa-3466) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Progreen® NeemCE 80® extracto de aceite de neem Insecticida/Concentrado Emulsionable (uqa-8775) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap – pesticide

Ultralux® S Sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-7617) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

CYR® PotasyMax Sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-10485) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Bacillus thuringiensis

Astuto® Bacillus thuringiensis var. kurstaki Insecticida biológico / floable seco (abb-2071) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Foray® 48B Biological Insecticide Flowable Concentrate (abb-0522) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Xtreem DF Insecticida biológico agrícola / Floable seco (abb-0360) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BactoSpeine DF Insecticida Biológico Agrícola / floable seco (abb-0361) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® PRO DF Biological Insecticide Dry Flowable (abb-3279) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

BioBit® HP Biological Insecticide Wettable Powder (abb-9521) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

XenTari® Biological Insecticide Dry Flowable (abb-9495) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® 2X Biological Insecticide Wettable Powder (abb-0103) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

VectoBac® WDG Biological Larvicide Water Dispersible Granule (abb-9528) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Gnatrol® WDG Biological Larvicide Water Dispersible Granule (abb-9583) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

XenTari WDG Biological Insecticide Water Dispersible Granule (abb-8062) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® DF Biological Insecticide Dry Flowable (abb-9054) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® 6,4WG Bt.k Biological Insecticide Water Dispersible Granule/WG (abb-3417) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® 10G Biological Insecticide Granule (abb-3723) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

DiPel 54WG Insecticida Biológico De Uso Agrícola Granulo dispersable en agua (WG) (abb-3755) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Segura® 32 Bioinsecticida. Larvicida Biológico para el control de Lepidópteros Polvo Mojable (WP) (abb-2666) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bactur 2X Insecticida Biológico (abb-2670) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bazthu • 32® Insecticida biológico contra lepidópteros Polvo mojable (WP) (abb-2679) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Biobit® 32 insecticida biológico Granulado Dispersable En Agua (WG) (abb-2680) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Geoda® Bioinsecticida Larvicida Biológico Para El Control De Lepidópteros Polvo Mojable (WP) (abb-2681) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bayer FlorBac® Insecticida biológico contra orugas Granulado dispersible en agua (WG) (abb-2706) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Aztron™ WDG Biological Insecticide Water Dispersible Granule (abb-2707) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

VectoBac GR Biological Larvicide Granule (abb-8250) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bactimos WG Bacterial Larvicide (abb-11512) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides

DiTera® DF Biological Nematicide Dry Flowable (abb-3077) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

VectoMax FG Biological Larvicide Fine Granule (abb-8251) 1

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Gibberellic Acid

ProGibb® 4% Plant Growth Regulator Solution (abb-9794) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

RyzUp® Plant Growth Regulator Soluble Concentrate (SL) (abb-9871) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® T&O Plant Growth Regulator (PGR) Solution (abb-3138) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Release® LC Plant Growth Regulator Solution (abb-3139) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Release® Plant Growth Regulator Soluble Powder (abb-3140) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

RYZUP® 40 SG Regulator De Crecimiento Granulos Solubles (SG) (abb-0649) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ProVide® 10 SG Plant Growth Regulator Soluble Granule (abb-5058) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Pro-Gibb® Plus 2X Soluble Powder Plant Growth Regulator (abb-0315) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® 40% Plant Growth Regulator Water Soluble Granule (abb-9526) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® Plus Regulator de Crecimiento Polvo Soluble - SP (abb-2882) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Activol® 40% GS Ácido Giberélico (abb-2540) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb 10SP Plant Growth Regulator Soluble Powder (abb-11552) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® TVO Plant Growth Regulator Solution (abb-10174) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Growth Regulators for Plants

ProTone™ SG Plant Growth Regulator Soluble Granule (abb-2103) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

RyzUp SmartGrass™ Plant Growth Regulator Water Soluble Granule (abb-1880) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Avyglycine Plant Growth Regulator (abb-7320) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

VBC-30396 Plant Growth Regulator Water Soluble Granule (abb-6114) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Gibberellic Acid (abb-5906) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ConTego SL Plant Growth Regulator Soluble Liquid (abb-5520) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb LV PLUS Plant Growth Regulator Solution (abb-5392) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

ExCelerator Regulator de Crecimiento de Plantas de Uso Agrícola Granulos Solubles (SG) (abb-8605) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

DiPeI® 2X DF Biological Insecticide Dry Flowable Powder (Wettable Granules) (abb-1490) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May only be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

with synthetic magnesium sulfate

Intracept O (vls-4994) 1
May be used if soil deficiency of the synthetic
micronutrients being applied is documented by
testing. Must not be used as a defoliant, herbicide
or desiccant. May only be used as a plant or soil
amendment if soil deficiency for magnesium is
documented.

Crop Products: Iron Products, Iron
Sulfates

QC Diamond Brand Coarse Granular
Ferrous Sulfate Monohydrate (vls-9694) 1
May be used as a plant or soil amendment if soil
deficiency of iron is documented by testing. Must
not be used as a defoliant, herbicide or desiccant.
May be used as a plant or soil amendment if soil
deficiency of iron is documented by testing. Must
not be used as a defoliant, herbicide, or
desiccant.

QC Diamond Brand Ferrous Sulfate Heptahydrate (No Anti-Caking) (vls-9695) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Ferrous Sulfate Heptahydrate (With Anti-Caking) (vls-9697) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Ferrous Sulfate Heptahydrate Solu-Grade (Without Anti-Caking) (vls-9698) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Fine Granular Ferrous Sulfate Monohydrate (vls-9699) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

QC Diamond Brand Standard Ferrous Sulfate Monohydrate (vls-9700) 1
May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide, or desiccant.

Crop Products: Magnesium Sulfate – synthetic

Polyamine Magnesium Organic (vls-4999) 1
May be used as a plant or soil amendment only with a documented soil deficiency for magnesium.

Livestock Products: Acid Activators for Chlorine Dioxide

Verox Activator DXS (vox-6379) 1

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(7). Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Verox® Activator DX (vox-7496) 1

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(7). Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Verox® Activator DXSP (vox-7497) 1

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(7). Chlorine products may be used up to maximum labeled rates for sanitizing equipment or tools (including dairy pipelines and tanks). Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use. Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

Natural Guard Brand by ferti•lome Copper Soap Fungicide Concentrate (vpg-8911) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Natural Guard Brand by ferti•lome Copper Soap Fungicide Ready to Use (vpg-8912) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Ferric Phosphate

Natural Guard Brand by ferti•lome Bug, Slug & Snail Bait (vpg-8910) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Natural Guard Brand by ferti•lome Slug & Snail Bait (vpg-8913) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

ferti•lome Triple Action Insecticide•Fungicide•Miticide (vpg-8387) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap – pesticide

Natural Guard Brand by ferti•lome Spinosad Soap Ready to Use (vpg-8914) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Natural Guard Brand by ferti•lome Spinosad Ready to Spray (vpg-8915) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Natural Guard Brand by Ferti•lome Spinosad Bagworm, Tent Caterpillar and Chewing Insect Control (vpg-7256) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Cueva Fungicide Ready-To-Use (neu-3101) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Cueva 2.4 Copper Soap Flowable Liquid Copper Fungicide (neu-3989) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Hydro Worxx™ Disease Control Concentrate (neu-7251) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Hydro Worxx™ Disease Control Ready To Use (neu-7252) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Cueva Fungicide Concentrate Flowable Liquid Copper Fungicide (neu-11228) 1
May be used for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil and shall not be used as herbicides.

Crop Products: Ferric Phosphate

Sluggo® Slug & Snail Bait (neu-0583) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Bug-N-Sluggo® Insect, Slug and Snail Bait (neu-2578) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Sluggo Maxx Brand (neu-10015) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Antix Plus (neu-10677) 1
May be used as slug and snail bait if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides – nonsynthetic

HomePlate (neu-6439) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Fireworxx (neu-11344) 1
May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils – nonsynthetic sources

Vegol™ Insecticidal Oil (neu-3007) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Pyrol-O RTU (neu-3589) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O (neu-3590) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

HydroWorxx™ Mite & Insect Killer Concentrate (neu-7299) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Hydro Worxx™ Mite & Insect Killer Ready To Use (neu-7255) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O Insecticide/Miticide (neu-10817) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap – pesticide

KOPA Insecticidal Soap (neu-0806) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudosan Insecticidal Soap Ready-to-Use (neu-0807) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudorff's Insecticidal Soap Concentrate (neu-4182) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudorff's Insecticidal Soap RTU (neu-0074) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Moss-Aside Moss Killer (neu-2602) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudorff® H01 Concentrate Herbicidal Soap (neu-2487) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Finalsan Ready-to-Use Herbicidal Soap (neu-2488) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Finalsan Concentrate Grass and Weed Killer (neu-2489) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

NEU1138I Concentrate (neu-5281) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

NEU1138I Ready-to-Use (neu-5282) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Hydro Worxx™ Insecticidal Soap 3 in 1 Concentrate (neu-7253) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Hydro Worxx™ Insecticidal Soap 3 in 1 Ready To Use (neu-7254) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Neudorff Bug Bait (neu-1123) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Antixx Fire Ant Bait (neu-11561) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients, Fertilizers, Blended with synthetic magnesium sulfate

ProNatural Photo Max Plus (wec-7974) 1
May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May only be used as a plant or soil amendment if soil deficiency for magnesium is documented.

Crop Products: Fertilizers, Blended with micronutrients, Zinc Products

Foli-Gro Zinc 10% (wec-7968) 1

May be used if soil deficiency of the synthetic micronutrients being applied is documented by testing. Must not be used as a defoliant, herbicide or desiccant. May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate

ProNatural Magnesium Plus 1-0-0 (wec-7972) 1

May only be used as a plant or soil amendment if soil deficiency for magnesium is documented.

Crop Products: Humates

Till-It 40% Humic Acid (wec-7985)

Till-It 70% Humic Acid LD (wec-7986)

Crop Products: Humic Acids – alkali extracted

Puric (wec-7976)

Puric Max (wec-7977)

Till-It 6% Humic Acid Concentrate Solution (wec-7983)

Till-It 12% Humic Acid Concentrate Solution (wec-7984)

Crop Products: Manure Tea

Fluid Compost (wec-7967) 1

May only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

Crop Products: Oils, Petroleum-Based – narrow range

440 Superior Spray Oil (wec-8719) 1

May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Sulfur – elemental

Wilbur-Ellis Ben-Sul 85 (wec-4045) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Sulfur DF Fungicide/Acaricide (wec-0309) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Wilbur-Ellis SOIL SULFUR GRANULAR (wec-2022)

Wilbur-Ellis SOIL SULFUR FINE GRIND (wec-2023)

Special Electric® (wec-1478) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Dusting Sulfur (wec-1479) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Golden Micronized Sulfur (FUNGICIDE AND INSECTICIDE) (wec-2773) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Kumulus DF Fungicide/Acaricide (wec-4515) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Sulfur Dry Flowable Fungicide - Miticide Micronized Wettable Sulfur WDG (Water Dispersible Granule) (wec-11466) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Zinc Products

Foli-Gro® Zinc 7% (wec-0467) 1

May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

ProNatural Zinc Plus 1-0-0 (wec-7975) 1

May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Boron Products – synthetic

M Micronutrient Boron 14.3% Granular
Borate (wsl-2325) 1

May be used as a plant or soil amendment if soil deficiency of boron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Coppers – micronutrient

WinField United Organics Copper 5% LS
Granular Copper Lignosulfonate Plant
Nutrient Compound (wsl-3980) 1

May be used as a plant or soil amendment if soil deficiency of copper is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Iron Products

WinField United Organics Iron 10% LS
Granular Iron Lignosulfonate Plant Nutrient
Compound (wsl-3981) 1

May be used as a plant or soil amendment if soil deficiency of iron is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Manganese Products

WinField United Organics Manganese 8% LS Granular Manganese Lignosulfonate Plant Nutrient Compound (wsl-6085) 1
May be used as a plant or soil amendment if soil deficiency of manganese is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Micronutrients – synthetic

WinField United Organics Crop Mix 1 LS Granular Micronutrient Lignosulfonate Plant Nutrient Compound (wsl-6123) 1
May be used as a plant or soil amendment if soil deficiency is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Zinc Products

WinField United Organics Zinc 10% LS Granular Zinc Lignosulfonate Plant Nutrient Compound (wsl-5112) 1
May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Zinc Sulfate 35.5% (wsl-2433) 1
May be used as a plant or soil amendment if soil deficiency of zinc is documented by testing. Must not be used as a defoliant, herbicide or desiccant.

Crop Products: Soap – pesticide

Safer's® Tomato & Vegetable Insecticide Ready To Use (wdc-1073) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer's® Insecticide Soap Commercial Concentrate (wdc-0080) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer's® Insecticidal Soap Ready-To-Use (wdc-0081) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer's® Rose & Flower Insecticide Ready to Use (wdc-0082) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Processing Products: Diatomaceous Earth

Chemfree Insectigone® Earwig Killer (wdc-1421) 1
May be used as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. May also be used for post-harvest handling of raw agricultural commodities.

Crop Products: Bacillus thuringiensis

Safer® Brand Garden Dust (wsc-5054) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand Caterpillar Killer for Trees, Shrubs & Vegetables Concentrate II (wsc-4526) 1
May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Diatomaceous Earth

Safer® Brand Ant & Crawling Insect Killer (wsc-9849) 1
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem Extract and Derivatives

Safer® Brand Garden Defense Multi-Purpose Spray Concentrate (wsc-2857) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Neem Oil RTU Fungicide / Miticide / Insecticide (wsc-8420) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Neem Oil Concentrate Fungicide/Miticide/Insecticide (wsc-8696) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Petroleum-Based – narrow range

Safer Brand Horticultural & Dormant Spray Oil (wsc-9669) 1
May be used for plant disease control or as an insecticide (including acaricide or mite control) if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum, Soap – pesticide

Safer® Brand Mosquito & Tick Killer (wsc-1202) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Wasp & Hornet Killer (wsc-2043) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Tomato & Vegetable Insect Killer II (wsc-4089) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Yard & Garden Insect Killer II (wsc-3157) 1
May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Repellents – synthetic

DeFence™ by Havahart Rabbit and Deer Repelling Pellets (wsc-1521) 1
May be used as a repellent if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Deer-Off® II Ready-To-Use (wsc-1381) 1
May be used as a repellent if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

DeFence™ by Havahart Rabbit & Deer Repellent (wsc-1279) 1
May be used as a repellent if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Critter Ridder® (wsc-4215) 1
May be used as a repellent if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Deer Away® Deer & Rabbit II (wsc-3158) 1
May be used as a repellent if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Critter Ridder® Ready to Use (wsc-0279) 1
May be used as a repellent if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Critter Ridder® Concentrate (wsc-0280) 1
May be used as a repellent if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Deer Off® Deer & Rabbit Repelling Pellets (wsc-2702) 1
May be used as a repellent if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap – pesticide

Safer® Brand End All™ Insect Killer (wsc-1484) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand #567 Pyrethrin & Insecticidal Soap Concentrate II (wsc-1899) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Flying Insect Killer (wsc-2044) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Ant & Roach Killer (wsc-2047) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Fruit & Vegetable Insect Killer II (wsc-9776) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Rose & Flower Insect Killer II (wsc-9784) 1
May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Insect Killing Soap Concentrate II (wsc-9786) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Moss & Algae Killer & Surface Cleaner Ready to Spray II (wsc-9789) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Moss & Algae Killer & Surface Cleaner Ready to Use II (wsc-9790) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Insect Killing Soap with Seaweed Extract II (wsc-9909) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Fast Acting Weed & Grass Killer (wsc-0380) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Fast-Acting Weed & Grass Killer Concentrate (wsc-3728) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Soap – pesticide, Sulfur – elemental

Safer® Brand 3-in-1 Garden Spray II (wsc-4181) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand 3- in-1 Concentrate II (wsc-4180) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Rose & Flower 3-in-1 Garden Spray II (wsc-11286) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Tomato & Vegetable 3-in-1 Garden Spray (wsc-11287) 1

May be used as an algicide/demosser, herbicide or insecticide if the requirements of §205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Sulfur – elemental

Safer® Brand Garden Fungicide II (wsc-3155) 1

May be used as a plant disease control or an insecticide (including acaricide or mite control) if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Diatomaceous Earth

Concern® Diatomaceous Earth Crawling Insect Killer (wsc-9783) 1

May be used as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. May also be used for post-harvest handling of raw agricultural commodities.

Safer Brand Diatomaceous Earth Ant & Crawling Insect Killer (wsc-5552) 1

May be used as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. May also be used for post-harvest handling of raw agricultural commodities.

AMINOVA 65 Fertilizante Orgánico / Polvo (zar-4368)

Crop Products: Bacillus thuringiensis

Larvizar Insecticida Biológico/Polvo (zar-10656) 1

May be used as a pesticide if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Aranova Insecticida Orgánico (zar-5166) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Derribe Total Bioinsecticida Orgánico (zar-5168) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Spidnova Insecticida Orgánico Concentrado de Extractos Vegetales para Control de Insectos en Cultivos Organicos (zar-5170) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

MIXXERT Insecticida Orgánico Liquido Emulsionable (zar-6112) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

VITANEEM Insecticida Orgánico Liquido Emulsionable (zar-6113) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Clean Crop LT Bactericida - fungicida orgánico (zar-10653) 1

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.
