Master Gardeners are one of the University of California Cooperative Extension (UCCE) programs, under the umbrella of the University's Agriculture and Natural Resources division (ANR).

UC ANR Mission is to engage UC with the people of California to achieve innovation in fundamental and applied research and education that supports:

- sustainable, safe, and nutritious food production and delivery
- economic success in a global economy
- a sustainable, healthy, and productive environment
- science literacy and youth development programs

Our Master Gardener Mission:

To extend research-based knowledge and information on home horticulture, pest management, and sustainable landscape practices to the residents of California and be guided by our core values and strategic initiatives.
