

The University of California Cooperative Extension San Diego County presents:

# The 2020 Climate Action & Agriculture Symposium Webinar: Soil Health

The health and safety of our communities is a priority. Due to Coronavirus disease 2019 (COVID-19), the UC Cooperative Extension is hosting a FREE webinar in lieu of the day-long event as previously announced.

## Thursday, May 21, 2020

1:00pm – 3:30pm | FREE: Registration Required

### Description:

The Climate Action and Agriculture Symposium focuses on the policies, research, programs, strategies and resources needed to support sustainable agriculture and the reduction of greenhouse gas emissions via the unique agricultural environments and industry in San Diego County. This symposium is intended to bring together agricultural producers, policy makers, government agencies, researchers, educators, consultants and other public and private agricultural service providers.

▶ Opening Remarks by Hannah Gbeh,  
Executive Director, San Diego County Farm Bureau

### Presentations:

- ▶ **Climate Trends & Impacts to Agriculture**  
Tapan Pathak, Ph.D., UC ANR Specialist, Climate Adaptation in Agriculture
- ▶ **Integrated Soil Management**
