

# Taxation Issues associated with the Rim Fire

Larry Camp RPF No. 1698

October 17, 2013

# DISCLAIMER

**Today's discussion is educational, NOT legal or accounting advice, since the facts and circumstances of each taxpayer's individual situation need to be taken into consideration for an exact application of the tax law.**

# Civics 101

- **Legislation – Congress** writes and the President signs into law the Internal Revenue Code or IRC. (Title 26 of U.S. Codes)
- **Administration** – The IRS interprets the Code through regulations, revenue rulings, private letter rulings, technical advice memoranda, et al.
- **The Courts** – Cases may be brought by taxpayers in either Tax Court, District Court, or the Court of Claims.

Taxpayers may initiate court actions after audit or after they have exhausted all other means of issue resolution with the IRS.

# Ownership Purposes

Why do you own the property?

- Are you in the *trade or business* of buying and selling timber?
- Are you holding the property primarily for *investment* purposes?
- Do you use the property primarily for *personal use*?

## Ownership Purposes (cont.)

*Your ownership purpose is important as it can affect the amount and type of tax you pay as well as the deductions you can take.*

# Keeping Records

- Management information/plans including photos
- Accounting records
  - Shoebox, journal, journal with accounts
- Form T – Timber (available at [www.IRS.gov](http://www.IRS.gov))

*These are important because they help you to document your ownership activities and income and expenses.*

# IRC Code Sections that May Affect You

- Casualty losses, thefts, condemnations - IRC § 165
- Involuntary Conversions - IRC § 1033
- Reforestation - IRC § 194
- Cost-share payments - IRC § 126

# Casualty Losses and do you have one?

Regulation §1.165-7. **Casualty losses.** - (a) In general. - (1) **Allowance of deduction.** . . . any loss arising from **fire, storm,** . . . or other casualty is allowable as a deduction under section 165(a) for the taxable year in which the loss is sustained.

**The manner of determining the amount of a casualty loss** allowable as a deduction . . . **is the same whether the loss has been incurred in a trade or business or in any transaction entered into for profit, or whether it has been a loss of property not connected with a trade or business** and not incurred in any transaction entered into for profit.

# Concept of Basis

Basis is the accounting term for what did something cost.

Can be adjusted for depreciation, depletion, or additional capital expenditures.

***Why is basis or adjusted cost important for Casualty Losses?***

# The Potential Bad News

- Casualty losses are limited to the lower of ***the adjusted basis of the property*** or the ***decrease in fair market value*** caused by the casualty.
- Concept of Single Identifiable Property (SIP)
- Usually, insect attacks that kill trees are not considered to be a casualty loss.

# Casualty Losses cont.

- Death of trees and seedlings from drought generally not qualified as a casualty loss.

## How to calculate a Casualty Loss

- For smaller tracts, where all the timber is damaged, multiply the Adjusted Depletion rate of the timber times the lost timber volume. Larger SIP's use the change in Fair Market Value FMV before and after the casualty. **Both approaches are subject to the adjusted basis limitation!**

## Introduction

This publication explains the tax treatment of casualties, thefts, and losses on deposits. A casualty occurs when your property is damaged as a result of a disaster such as a storm, fire, car accident, or similar event. A theft occurs when someone steals your property. A loss on deposits occurs when your financial institution becomes insolvent or bankrupt.

This publication discusses the following topics.

- Definitions of a casualty, theft, and loss on deposits.
- How to figure the amount of your gain or loss.
- How to treat insurance and other reimbursements you receive.
- The deduction limits.
- When and how to report a casualty or theft.
- The special rules for disaster area losses.

## Instructions for Form 4684

### Casualties and Thefts

Section references are to the Internal Revenue Code unless otherwise noted.

### General Instructions

#### Future Developments

For the latest information about developments related to Form 4684 and its instructions, such as legislation enacted after they were published, go to [www.irs.gov/form4684](http://www.irs.gov/form4684).

#### Purpose of Form

Use Form 4684 to report gains and losses from casualties and thefts. Attach Form 4684 to your tax return.

#### Losses You Can Deduct

You can deduct losses of property from fire, storm, shipwreck, or other casualty, or theft (for example, larceny, embezzlement, and robbery).

If your property is covered by insurance, you must file a timely insurance claim for reimbursement of your loss. Otherwise, you cannot deduct the loss as a casualty or theft loss. However, the part of the loss that is not covered by insurance is still deductible.

**Related expenses.** The related expenses you have due to a casualty or theft, such as expenses for the treatment of personal injuries or for the rental of a car, are not deductible as casualty or theft losses.

Costs for protection against future casualties are not deductible but should be capitalized as permanent improvements. An example would be the cost of a levee to stop flooding.

#### Losses You Cannot Deduct

- Money or property misplaced or lost.
- Breakage of china, glassware, furniture, and similar items under normal conditions.
- Progressive damage to property (buildings, clothes, trees, etc.) caused by termites, moths, other insects, or disease.

#### Gain on Reimbursement

If the amount you receive in insurance or other reimbursement is more than the cost or other basis of the property, you have a gain. If you have a gain, you may have to pay tax on it, or you may be able to postpone the gain.

Do not report the gain on damaged, destroyed, or stolen property if you receive property that is similar or related to it in service or use. Your basis in the new

property is the same as your basis in the old property.

Any tangible replacement property held for use in a trade or business is treated as similar or related in service or use to property held for use in a trade or business or for investment if:

- The property you are replacing was damaged or destroyed in a disaster, and
- The area in which the property was damaged or destroyed was declared by the President of the United States to warrant federal assistance because of that disaster.

Generally, you must recognize the gain if you receive unlike property or money as reimbursement. But you generally can choose to postpone all or part of the gain if, within 2 years of the end of the first tax year in which any part of the gain is realized, you purchase:

- Property similar or related in service or use to the damaged, destroyed, or stolen property, or
- A controlling interest (at least 80%) in a corporation owning such property.

The replacement period is 5 years, instead of 2 years, if the property was located in the:

- Hurricane Katrina disaster area (which includes the states of Alabama, Florida, Louisiana, and Mississippi) and that property was converted after August 24, 2005, as a result of Hurricane Katrina, but only if substantially all of the use of the replacement property is in that disaster area.
- Kansas disaster area (as defined in Pub. 4492-A, Information for Taxpayers Affected by the May 4, 2007, Kansas Storms and Tornadoes) and that property was converted after May 3, 2007, as a result of the storms or tornadoes, but only if substantially all of the use of the replacement property is in that disaster area.
- Midwestern disaster areas (as defined in Pub. 4492-B, Information for Affected Taxpayers in the Midwestern Disaster Areas) and that property was converted on or after the applicable disaster date as a result of severe storms, tornadoes, or flooding, but only if substantially all of the use of the replacement property is in those disaster areas.

To postpone all of the gain, the cost of the replacement property must be equal to or more than the reimbursement you received for your property. If the cost of the replacement property is less than the reimbursement received, you must recognize the gain to the extent the reimbursement exceeds the cost of the replacement property.

If the replacement property or stock is acquired from a related person, gain generally cannot be postponed by:

- Corporations (other than S corporations),
- Partnerships more than 50% owned by one or more corporations (other than S corporations), or
- All other taxpayers, unless the aggregate realized gains on the involuntarily converted property are \$100,000 or less for the tax year. This rule applies to partnerships and S corporations at both the entity and partner or shareholder level.

For details, see section 1033(i).

For details on how to postpone the gain, see Pub. 547, Casualties, Disasters, and Thefts.

If your main home was located in a disaster area and that home or any of its contents were damaged or destroyed due to the disaster, special rules apply. See [Gains Realized on Homes in Disaster Areas](#) later.

#### When To Deduct a Loss

Deduct the part of your casualty or theft loss that is not reimbursable in the tax year the casualty occurred or the theft was discovered. However, a disaster loss and a loss from deposits in insolvent or bankrupt financial institutions may be treated differently. See [Disaster Losses and Special Treatment for Losses on Deposits in Insolvent or Bankrupt Financial Institutions](#) later.

If you are not sure whether part of your casualty or theft loss will be reimbursed, do not deduct that part until the tax year when you become reasonably certain that it will not be reimbursed.

If you are reimbursed for a loss you deducted in an earlier year, include the reimbursement in your income in the year you received it, but only to the extent the deduction reduced your tax in an earlier year.

See Pub. 547 for special rules on when to deduct losses from casualties and thefts to leased property.

#### Disaster Losses

A disaster loss is a loss that occurred in an area determined by the President of the United States to warrant federal disaster assistance. It includes a major disaster or emergency declaration. A list of areas warranting public or individual assistance (or both) is available at the Federal Emergency Management Agency (FEMA) website at [www.fema.gov](http://www.fema.gov).

Form **4684** (2012)

# Example

- Land and Timber Purchased 1978 - 100 acres @ \$ 300 acre Total Cost \$ 30,000
- Allocate Land \$ 20/acre -- Total land value \$ 2,000
- Allocate Improvements such as Roads \$ 5/acre -- Total Improvement value \$ 500
- Merch. Timber PP & DF @ 5Mbf/ac \$ 55/Mbf Total Timber value \$ 27,500

- Allocate Premerchantable timber \$ 0/acre
- Allocate Reproduction \$ 0/acre
- Assume 3% growth for 35 years for example Total Harvest Volume is 10 Mbf/ac

## **Change in Fair Market Value**

- 2013 FMV **Before** fire value  
10 Mbf @ \$ 250/Mbf x 100 acres =  
\$ 250,000
- 2013 FMV **After** fire value  
10 Mbf @ \$ 150/Mbf x 100 acres =  
\$ 150,000

# Tentative Loss Based on Difference in Fair Market Value Before and After Fire

**Before** Value less **After** Value \$ 100,000.

Loss is limited by the Lower of Adjusted Basis **or** Difference in Fair Market Value =  
**\$ 27,500**

with no loss for any reproduction or premerchutable timber.

## Assuming Salvage of Timber

- Sale of Delivered Logs IRC § 631(a)

Harvest 1,000 Mbf at \$ 150/Mbf stumpage

Net sale Income = \$ 150,000

Potential Capital Gain \$ 150,000 – Timber

Basis \$ 27,500 = \$ 122,500

- Potential Capital Gains marginal rate = 15% versus Potential Ordinary income marginal rate = 25% Potential Tax Difference = \$ 12,250

- FMV January 1, 2013 \$ 230/Mbf
- FMV October 1, 2013 \$ 150/Mbf
  
- Ordinary Income Loss  
10 Mbf @\$ 80/Mbf x 100 acres  
= \$ 80,000

Process is slightly different if selling stumpage with the mill responsible for harvesting.

# Involuntary Conversion IRC § 1033

- Purpose: to permit a taxpayer to avoid paying gain on property that is disposed of involuntarily.
- An involuntary conversion occurs when property is destroyed, stolen, or condemned for public use. Destruction is often synonymous with a casualty such as a fire or wind storm but it need not be sudden.

# Involuntary Conversion cont.

- Allows for reinvestment of income generally within a 2 year time period.
- Replacement property must be similar in nature
  - Reforestation on timberland owned by the taxpayer
  - Buying additional land for replanting
  - Acquisition of standing timber
  - Acquisition of timberlands

# Reforestation

IRC § 194(3) defines reforestation costs to include site preparation costs, seedling costs and labor and tool expense.

Treas. Reg. 1.611-3(a) and Revenue Ruling 75-467 reforestation costs are to be capitalized.

However, beginning in the fall 2004, IRC § 194(b) generally permits a deduction of up to \$ 10,000 for reforestation expenses per Qualified Timber Property (QTP).

# Reforestation cont.

- Additional reforestation expenditures generally amortizable over 7 years (84 months) under IRC § 194(a)
- What is a QTP? Property  $\geq$  1 acre used for growing production of timber products under IRC § 194(c)(1) & Treas. Reg. § 1.194-3(a).
- Does not include ornamental trees including Christmas trees.
- Must make a timely election.

# Reforestation cont.

- Cost share payments are not includable for purposes of IRC § 194 unless included in gross income. IRC § 194(c)(3)(B)
- Must keep data to track the location and costs of each plantation.

# Cost Share Payments

- Treatment of Cost Share payments under programs like CFIP, EQUIP, WHIP are generally includable as gross income under provisions of IRC § 126 and Treas. Reg. § 16A.126-1.
- A portion of the income can be excluded under the provisions of Treas. Reg. § 16A.126-1 and 2.

# Other Things to Remember

- When you do have a timber sale, you are allowed to deduct the direct timber sale expenses from the proceeds.
- The tax laws and regulations change – remember to stay current.
