

# FIG

## There are 2 classes of fig:

1. **White-brown:** produces on current season's wood.

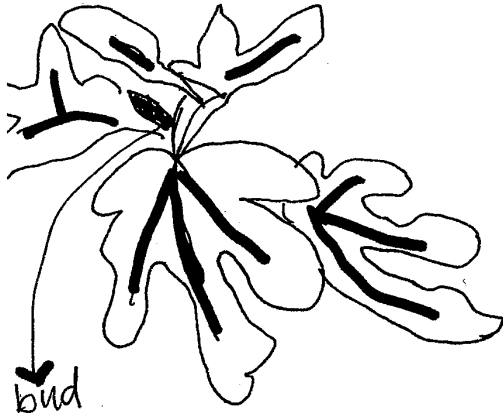

Cut back heavily during winter to 2 buds

2. **Black** (Mission): fruits on 1 year-old wood or more, lighter pruning

## Figs have 2 crops:

1. Spring and late summer and 2. Early fall

## CARE:

Watch out for those sucker roots - cut out  
Keep tree open, then all the fruit will ripen

Many animals like figs, if your tree is small you can net it.

## Summer Pruning Tip:

Pinch out the tips of young shoots when they have made 5 or 6 leaves
