

The Central Coast Prescribed Burn Association presents:

Prescribed Firelighter and Wildland Firefighter Training

Learn the fundamentals of prescribed firelighting and wildland firefighting during this hands-on, one-day field training (choose 1 of the 3 workshop locations). This training will give you the building blocks to be a safe and effective participant in local Rx burns. By the end of the training, you will be prepared to participate in local, cooperative burns hosted by the new **Central Coast Prescribed Burn Association** (calpba.org). Skills acquired at the training include fireline construction, fireline communications, prescribed fire ignitions, operation of a firefighting pump, installation of a hose-lay and more.

If you do not have wildfire or prescribed fire experience, the one-day workshop will be a prerequisite for participation in future CCPBA burns (so don't miss out)!

In addition, the one-day training can certify you as a Basic Wildland Firefighter 2 (NWCG FFT2), with pre-completion of online coursework plus an "Arduous pack-test" prior to attending the in-person field day (note: online course work is not necessary if you will not be seeking a FFT2 cert). Let us know if you are interested.

April 3: Santa Lucia Conservancy, Carmel, Monterey Co

April 10: Paicines Ranch, San Benito Co

April 11: Davenport, Santa Cruz Co

Time: 900 am – 500 pm

Cost: \$20 (Scholarships available upon request, no one turned away)
