PUMPKIN PATCH & CORN MAZE

LATE SEPTEMBER – HALLOWEEN

visit ramfarms.com for official details!

HISTORY

A night scene at a pumpkin patch. The foreground is filled with numerous pumpkins of various sizes and colors, including orange and white. Several tall, dried corn stalks are scattered throughout the display. In the background, there are more pumpkins and a white building, possibly a barn or storage shed. The scene is illuminated by warm, glowing string lights strung across the area, creating a cozy and festive atmosphere. A wooden post stands in the middle ground, with a red sign attached to it. The overall setting is outdoors, with trees visible in the upper left corner.

THE PUMPKIN PATCH

An aerial photograph of a large, rectangular corn maze. The maze is composed of vibrant green corn plants, with the paths cut out to reveal the ground. In the center of the maze, a large, stylized figure of a person is visible, possibly a Native American or a historical figure. The maze is surrounded by other agricultural fields, some of which are also green. In the bottom right corner, there is a small farm building, a parking area with several vehicles, and a small green lawn area. A dirt road or path runs along the left side of the maze. The overall scene is bright and sunny, suggesting a clear day.
