

UCCE Master Gardeners of Amador County - 2024

Public Education Classes

FireWise and WaterWise Gardening + Irrigation

Date: Saturday, June 22
Time: 9:00 AM – Noon
Location: Volcano Tech Center Community Building
19888 Church Street, Pine Grove, CA
(next to Pine Grove Park)

FireWise

While no one wants to lose a home to wildfire, many residents wonder exactly what they have to do to create a fire safe landscape. Creating defensible space does not mean razing every living thing within 100 feet of your home, and it doesn't have to be expensive. Objectives:

- *Learn about defensible space*
- *Discuss appropriate vegetation and home hardening approaches for upcountry residents*
- *Firewise community programming will be reviewed*

WaterWise Gardening + Irrigation

Planning your landscaping and gardens for summer dry conditions will put you ahead of the game for water and drought restrictions.

Objectives:

- *Review water conservation*
- *Learn approaches to waterwise irrigation*
- *Identify drought tolerant and appropriate plants*
- *Learn helpful ways to conserve water in your garden*
