

2025 Sheep Shearing School

LEARN TO SHEAR SHEEP

The New Zealand Way!

Learn to shear sheep using the methods taught by certified instructors of the National Shearing Program. This five-day hands-on course is intended for both the beginner as well as the advanced shearer. Learn how to shear sheep, maintain a quality wool clip, and minimize stress to both you and the sheep. You will also learn about the shearing machine, care for and maintain sharpen combs and cutters.

Located at Clearlake Oaks, CA,
95423

April 7-11, 2025

A person shearing a sheep, with wool being collected in a pile. The person is wearing a blue shirt and black pants. The sheep is lying down, and the person is using a shearing machine to remove the wool. There are three yellow stars around the image.
