

## Resources

### Gardening for Birds & Butterflies/Moths Workshop 2025

Sylvia Wright, UC Master Gardeners of Nevada County, <https://ncmq.ucanr.edu/>

### California Native Plant Society

<https://calscape.org/>

Search for plants by zip code and by wildlife value

<https://bloomcalifornia.org/plants/>

Garden designs with plant quantities and helpful tips

### Xerces Society

<https://xerces.org>

<https://xerces.org/blog/leave-the-leaves>

Seasonal gardening tips for bugs and birds

### Douglas Tallamy, author and naturalist, University of Delaware

<https://homegrownnationalpark.org/>

Join a campaign to plant 20 million acres of native plants in the USA.

### Milkweed Seed-Sowing Workshops

Mike "The Bee Guy" Wallace offers small, hands-on workshops in mid-January through April of 2025. Includes supplies and seeds. Grass Valley. \$25. (408) 981-8224

### Pollinator Partnership

[www.pollinator.org](http://www.pollinator.org)

Ecoregional guides to "Selecting Plants for Pollinators" by zip code.

### **Sierra Foothills Audubon Society**

[sierrafoothillsaudubon.org](http://sierrafoothillsaudubon.org)

Landscaping for birds and fire protection • Where to bird in Nevada County  
Bird conservation • Speakers and field trips

### **National Audubon Society**

<https://www.audubon.org/news/how-make-your-yard-bird-friendly-0>

Grow a beautiful garden that provides a safe haven for birds in the face of climate change.

### **Cornell Lab of Ornithology**

[birds.cornell.edu](http://birds.cornell.edu)

**All About Birds** is a website with in-depth information for just about every species of bird you'll see in your yard.

**Merlin** is a free app that can help you identify birds by sight and sound.

**eBird** is an app that lets you 1) find out what birds have been observed in your area, in real time 2) record your own bird observations and keep personal birding lists and 3) contribute to our knowledge of bird populations as a citizen scientist.

**Bird Academy** has online courses to help you learn more about wild birds, including how to landscape for bird habitat.

### **Two Thirds for The Birds**

[www.234birds.org](http://www.234birds.org)

A call to action to the landscape design professional community to design only Earth-positive landscapes. Useful to non-professionals, too.

### **Managing Birds on Tree Fruits and Vines – University of California**

<http://ipm.ucanr.edu/PMG/PESTNOTES/pn74152.html>

The most effective way to reduce bird damage to small orchards and isolated trees is netting.

### **California Bluebird Recovery Program**

[cbrp.org](http://cbrp.org)

How to build and maintain nest boxes for Western Bluebirds and other cavity-nesting birds.
